What's Changed

Work Item ID	Components	Product Impact	Description
217090	Android	Bug Fix	Community site and forums hyperlink version
213973	Data Chart	Bug Fix	Labels are positioned wrong in category x-axis with rotated and multiline labels. Notes: Adjusted the label rotation logic so it accounts for the individual label height instead of the maximum label height.
217357	Linear Gauge	Bug Fix	Out of memory exception occurs when min and max are very close together.
