

NetAdvantage[®] Reporting 2014.1 (build 2008)

Service Release Notes – June 2014

Use NetAdvantage Reporting, the industry's first WPF and HTML5-based design-time and rendering reporting tool, to create elegant and easy-to-design reports engineered to help you deliver information to your users in the shortest time possible —without the need for legacy code.

Installation

Downloading	Download NetAdvantage Reporting here.						
Notes	<p>NetAdvantage Reporting does not support side-by-side installations. Depending on the installation form of your choice, an additional step may be required:</p> <table border="1" data-bbox="453 667 1414 1287"> <thead> <tr> <th data-bbox="453 667 761 751">Installing through...</th> <th data-bbox="764 667 1414 751">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="453 756 761 1077">Platform Installer</td> <td data-bbox="764 756 1414 1077">When installing NetAdvantage Reporting 2014 Volume 1 through the Platform Installer (self-extracting wrapper) and having a previous NetAdvantage Reporting release already installed, it will upgrade your previous installation to 14.1.</td> </tr> <tr> <td data-bbox="453 1081 761 1287">Stand-alone installer</td> <td data-bbox="764 1081 1414 1287">When installing NetAdvantage Reporting using the stand-alone installer you will have to manually uninstall a previous version before installing 14.1.</td> </tr> </tbody> </table>	Installing through...	Description	Platform Installer	When installing NetAdvantage Reporting 2014 Volume 1 through the Platform Installer (self-extracting wrapper) and having a previous NetAdvantage Reporting release already installed, it will upgrade your previous installation to 14.1.	Stand-alone installer	When installing NetAdvantage Reporting using the stand-alone installer you will have to manually uninstall a previous version before installing 14.1.
Installing through...	Description						
Platform Installer	When installing NetAdvantage Reporting 2014 Volume 1 through the Platform Installer (self-extracting wrapper) and having a previous NetAdvantage Reporting release already installed, it will upgrade your previous installation to 14.1.						
Stand-alone installer	When installing NetAdvantage Reporting using the stand-alone installer you will have to manually uninstall a previous version before installing 14.1.						
Sample Browser	Requirements <ul style="list-style-type: none"> • RIA Services must be installed. • SQL Express is required by default, if not available you may configure or use an alternate connection string defined in the Web.Config file. 						

Bug Fixes

Component	Product Impact	Description
NetAdvantage Reporting (Engine)	Bug Fix	Page break issue fixed When previewing a report with a page break on a page other than the first one, followed by a table that exceeds the length of the page, elements no longer overlap.
NetAdvantage Reporting (Exporters - PDF)	Bug Fix	Label blank space issue fixed When exporting a report to PDF, the unexpected blank space between characters in labels with certain settings no longer appears.
NetAdvantage Reporting (Designer)	Bug Fix	Data Source Configuration issue fixed Query runs correctly when specifying an SQL statement in the Data Source Configuration Wizard including parameters, a single quote in a field alias, and string literals.
NetAdvantage Reporting (Viewer)	Bug Fix	Parameter binding issue fixed Refresh works correctly when having a combination of bound and unbound parameters in the report viewer.
NetAdvantage Reporting (Exporters – Excel)	Bug Fix	Export as Excel issue fixed When exporting a report as Excel spreadsheet, double nullable values are no longer exported as string.
NetAdvantage Reporting (Engine)	Bug Fix	Table issue fixed Visible property binding for Tables displayed in multiple pages is now working correctly.
NetAdvantage Reporting (Exporters)	Bug Fix	Exporting to PDF image issue fixed Embedded resource images are now supported when exporting a report.
NetAdvantage Reporting (Printing)	Bug Fix	Printing to a network printer issue fixed Printing to a network printer is now supported.
NetAdvantage Reporting (Exporters - PDF)	Bug Fix	Exporting to PDF performance issue fixed Improved performance when exporting a report to PDF in some problem scenarios.
NetAdvantage Reporting	Bug Fix	IE11 issue fixed Exporting to PDF and printing with IE11 is now

(Exporters – HTML5 Viewer)

supported.
