Certain features of the product require Visual Studio integration.</td></tr> </tbody> </table>	Prerequisite	Description	ASP.NET Framework CLR 2.0 or above	NetAdvantage for ASP.NET runs on top of the ASP.NET Framework on CLR 2.0 and above.	Visual Studio (2005, 2008, 2010)	To develop with NetAdvantage for ASP.NET, it is recommended to use Visual Studio. Certain features of the product require Visual Studio integration.
Prerequisite	Description						
ASP.NET Framework CLR 2.0 or above	NetAdvantage for ASP.NET runs on top of the ASP.NET Framework on CLR 2.0 and above.						
Visual Studio (2005, 2008, 2010)	To develop with NetAdvantage for ASP.NET, it is recommended to use Visual Studio. Certain features of the product require Visual Studio integration.						
<b>Troubleshooting</b>	Should you encounter issues during installation, refer to the <a href="#">online documentation</a> .						

## Frequently Asked Questions

### Where did my controls go?

If you are upgrading from a version of NetAdvantage 2011.1 or earlier, you may notice that some controls have been retired. For more information on these controls, see the [Known Issues documentation](#) as well as the [Migration Guide](#).

## Summary

### ASP.NET Controls New Features - 2012 Volume 1

In NetAdvantage for ASP.NET 12.1, we continue to strengthen the Aikido platform and take the control capabilities to a whole new level. In addition to adding Touch support across all controls, we're working to ensure they work seamlessly on iPhone and iPad browsers. This release also boasts enhancements to our Data Grid – the most performant grid on the market – and Hierarchical Data Grid.

### Touch Support – NEW!

Flick, pinch, pan, and zoom your way to the right data. It's easy to move between mobile devices and desktop applications when all of the controls are Touch enabled. All of the buttons and UI elements are bigger, and special UI for features like Grouping, Multiple Sorting, and Multiple Selection, among others. We've added panning, pinching support, as well as acceleration/inertia effects for controls such as the Grid, Tree, and Combo.

### Data Grid and Hierarchical Data Grid – ENHANCED!

- **Cell Merging** – Our first RTM of the Cell Merging feature has all the functionality you need to achieve the best cell merging experience available on the web – which includes cell merging with sorting, cell merging with grouping, and styling of merged cells.
- **Multi-Column Headers with Column Fixing** – We've combined Multi-Column Headers with our Column Fixing feature to allow you the ability to create a flexible and informative way to present information.
- **Multi-Column Footers** – Use multi-column footers to display custom labels. It's a perfect complement to the Grid's Summary feature.
- **Excel-Style Filtering (CTP)** – By popular demand, the Excel-Style Filtering capability echoes Excel as much as possible. You can now filter by unique values and set up custom filters for columns.

Company	Address	City	Zip	Country ▲	Phone
Cactus Comidas para llevar	Cerrito 333	Buenos Aires	1010	Argentina	(1) 135-5555
Océano Atlántico Ltda.	Ing. Gustavo Moncada 8585Piso 20-A	Buenos Aires	1010	Argentina	(1) 135-5333
