NetAdvantage® for ASP.NET 2012.2 Release Notes

Accelerate your application development with ASP.NET AJAX controls built on the Aikido™ Framework to be the fastest, lightest and most complete toolset for rapidly building high performance web applications.

Installation

Downloading	[Download NetAdvantage for ASP.NET 2012.2 here.](#)
Installation Prerequisites	Before you install NetAdvantage for ASP.NET 2012.2, make sure you have the following: <table><tr><td>Prerequisite</td><td>Description</td></tr><tr><td>ASP.NET Framework CLR 3.5 or above</td><td>NetAdvantage for ASP.NET runs on top of the ASP.NET Framework on CLR 3.5 and above.</td></tr><tr><td>Visual Studio (2008, 2010, 2012)</td><td>To develop with NetAdvantage for ASP.NET, it is recommended to use Visual Studio. Certain features of the product require Visual Studio integration.</td></tr></table>
Troubleshooting	Should you encounter issues during installation, refer to the [online documentation](#).

Frequently Asked Questions

Where did my controls go?	If you are upgrading from a version of NetAdvantage 2011.1 or earlier, you may notice that some controls have been retired. For more information on these controls, see the Known Issues documentation as well as the Migration Guide.

Summary

2012 Volume 2

In NetAdvantage for ASP.NET 12.2, we continue to deliver on one of the market's most robust toolsets. With NetAdvantage for ASP.NET, you get support for new platforms from Microsoft, as well as enhancements across key controls like Grids and Editors.

Microsoft Support for Visual Studio 2012 and Internet Explorer 10 – NEW!

- Visual Studio 2012 Support – Design time, Toolbox, and dialogs are all enhanced to support Visual Studio 2012
- Internet Explorer 10 – All ASP.NET controls are tested to support IE10, including Touch support.

Data Grid and Hierarchical Data Grid – Enhanced!

- Excel-Style Filtering (RTM) – By popular demand, the Excel-Style Filtering capability echoes Excel as much as possible. You can now file by unique values and set up custom filters for columns.

Company	Address	City	Zip	Country ▲	Phone

AppStylist – Enhanced!

- CLR 4 Support – We've tested the AppStyling with CLR 4.0 version of our controls.

MaskEditor – Enhanced!

- Client-side Input Mask – Developers have the ability to set the mask of the control in JavaScript on the client.

Release Notes

Component	Product Impact	Description
AppStylist	Bug Fix	When a StyleSet is loading a warning message displays
AppStylist	Bug Fix	Some controls are not displaying in the preview canvas "AppStylist for ASP.NET"
AppStylist	Bug Fix	Some of the controls don't visualize and only the JavaScript for them is shown
Drag and Drop Framework	Bug Fix	Mouse cursor is not displaying according to the selected options
Drag and Drop Framework	Bug Fix	Drag and Drop does not work properly under Firefox in Drag & Drop Framework samples
Help	Bug Fix	Readme file in Startup solution does not contain valid instructions to running it in VS2008
Help	Bug Fix	Touch Support Overview page in 12.2 documentation contains incorrect information
Help	Bug Fix	No usage explained for second parameter of the set_currentValue() method
Help	Bug Fix	WebSchedule_CalendarView.pdf link does not work in the "Styling WebCalendarView" topic
Help	Bug Fix	Most of Property, Methods and Event names are missing in DropDownProvider Class Members page
Help	Bug Fix	Missing bullet items in ASP.NET documentation Resource topic
Infragistics Document Engine	Bug Fix	AddRichContent fails when it encounters the following tag <o:p></o:p>
Infragistics Excel Engine	Bug Fix	When WebExcelExporter is used in a web application, the export time for an application that uses a version of the controls higher than 11.1 is doubled versus when 10.3 version is used. **Notes:** Improved performance in the Excel library when accessing the WorksheetCell.CellFormat properties of many cells.
Installer	Improvement	Nothing installed after installation of ASP.NET on a Windows 7 "No default website" environment

Persistence Framework	Bug Fix	'About Persistence Framework' contains text that needs modification because it says that the framework saves all the controls, which is not always correct. Notes: The text now is: Persistence Framework allows saving all individual controls and control properties, except those listed below in the Ignored Controls and Properties paragraph. You can adjust the framework to persist all the pages or save only certain ones.
Persistence Framework	Bug Fix	Unable to load a control with values from a different culture via the Persistence Framework. **Notes:** Need to not persist SelectedDate property, since Fields actually parsed into it. Added globalization code to persistence anyway
Samples	Bug Fix	Error message is shown when clicking a link in the samples browser
WebCaptcha	Bug Fix	No image for some combination of background and text color
WebCaptcha	Bug Fix	Misalignment in Captcha Themes sample
WebChart	Bug Fix	The label of the last column in the chart of Axis Label Layouts sampl is missing
WebChart	Bug Fix	X-Axis Tickmarks is not working properly for Histogram Chart
WebChart	Bug Fix	Some of the chart samples have black triangles round the images' corners
WebChart	Bug Fix	Chart: X-axis scroll bar is not visible.
WebChart	Bug Fix	Spelling mistake in Basic Annotations sample
WebChart	Bug Fix	Accepting a negative Radius Factor in a 3D Pie Chart as valid input and not showing a chart
WebDataGrid	Bug Fix	Missing .js and .css files in 'Ajax Indicator with Virtual Scrolling' and 'AjaxIndicator - Using WebDataGrid' samples in Firefox and Chrome
WebDataGrid	Bug Fix	PageableRecordsCollection exception is thrown when a filter is applied if UnboundCheckBoxField exists. **Notes:** Added type check to this code since this case didn't fall into that.
WebDataGrid	Bug Fix	Summary dropdown option truncated in sample
WebDataGrid	Bug Fix	When FilterType is "ExcelStyleFilter", the dropdown menu is not closing when you click outside the dropdown
WebDataGrid	Bug Fix	FormatException thrown when filtering a column using excel style filtering
WebDataGrid	Bug Fix	Exception is thrown when filtering by "Total" in 'Filtering with Unbound Column' sample
WebDataGrid	Bug Fix	Missing .css file in 'Paging - Custom Pager Template' sample

WebDataMenu	Bug Fix	Dialog window for the selected theme is getting overlapped on the "Select a theme" drop down
WebDataMenu	Bug Fix	Images are missing from data binding sample
WebDataTree	Bug Fix	TreeNode does not navigate to the page specified in the NavigateUrl property
WebDatePicker	Bug Fix	Dates are getting truncated in "Date Picker" Sample
WebDropDown	Bug Fix	Dropdown contents are displaying on the right side
WebDropDown	Bug Fix	Pressing clear button on IE 10 does not update the value
WebExplorerBar	Bug Fix	Latest Build Version and logo are not updated at the bottom of the page
WebExplorerBar	Bug Fix	Incorrect heights are appearing in the samples
WebExplorerBar	Bug Fix	Misalignment of text in WebExplorerBar
WebGauge	Bug Fix	WebNumericEditor is not properly aligned in Gauge sample
WebHierarchicalDataGrid	Bug Fix	Steps in "Binding to Xml Data Source " help topic are incorrect
WebHierarchicalDataGrid	Bug Fix	Columns headers are truncated
WebHierarchicalDataGrid	Bug Fix	Dropdown editor is not fully visible
WebHierarchicalDataGrid		The filter drop down is not appying styles to the filter drop down area
WebHierarchicalDataGrid	Bug Fix	WebHierarchicalDataSource and ObjectDataSource disappear on grid schema refresh. **Notes:** Catching the exception that happens because of the update panel in finding the datasource at design time. It would pass it along at runtime.
WebHierarchicalDataGrid	Bug Fix	Clicking any of the child records of the WebHierarchicalDataGrid results in a JavaScript error in the "Multi-Column Headers" sample.
WebHierarchicalDataGrid	Bug Fix	Items under asp:Menu are displaying in the middle of page.
WebHierarchicalDataGrid	Bug Fix	Two scroll bars are displaying in "Frameworks > Hierarchical Data Source" sample
WebHtmlEditor	Bug Fix	Shortcut key function Ctrl+Y is not working
WebHtmlEditor	Bug Fix	'SpellChecker was not found' message in the 'WebHtmlEditor With WebSpellChecker' sample
WebMonthCalendar	Bug Fix	Missing page in "FirstDayHeaderFormatString Property" topic
WebSchedule	Bug Fix	Improperly styled buttons and misaligned check boxes in WebMonthView Styles Schedule sample

WebSchedule	Bug Fix	'Style.css' is missing in 'Multi Day Event Banner' sample
WebSchedule	Bug Fix	Recurring appointment does not apply CSS style
WebScriptManager	Bug Fix	Exception is thrown when opening 'WebScriptManager CDN Support' sample
WebSpellChecker	Bug Fix	Error "Page requested was not found" is thrown in sample
WebTab	Bug Fix	Alignment of text boxes are not appropriate in "Layouts > Tab" Sample
