## Release Notes

Component	Product Impact	Description
<b>AppStylist</b>	Bug Fix	Application Styling tool does not appear in Visual Studio 2012 Ultimate tools drop down. <b>Note:</b> Another entry needed to be added to the add-in file to support Visual Studio 2012.  <HostApplication> <Name>Microsoft Visual Studio</Name> <Version>11.0</Version> </HostApplication>

<b>AppStylist</b>	Bug Fix	IG StyleSet sets inappropriate background when the grid is in edit mode. <b>Note:</b> In current version application may fix that by changing "0" values in all CSS attributes of all classes in IG/ig_dataGrid.css by "0px". For example, Wrong: .igg_IGFilterRuleDropDown { ... background-position: 0 -280px; ... } Correct: .igg_IGFilterRuleDropDown { ... background-position: 0px -280px; ... }
<b>AppStylist</b>	Bug Fix	IG StyleSet sets inappropriate background in the filter dropdown.
<b>APTCA</b>	Bug Fix	APTCA is not compiled into Infragistics.WebUI.Shared.dll and causes an exception in partial trust environments
<b>Excel Engine</b>	Bug Fix	MS Excel throws an error on opening an exported excel that contains commented cells on a machine that has 'Unicode IVS Add-in for Microsoft Office 2010' installed. <b>Note:</b> Fixed an issue in the Excel library where a file created which contains comments will cause MS Excel to have an exception when the Unicode IVS Add-in for Microsoft Office 2010 is installed.
<b>Samples</b>	Bug Fix	[Samples] WebDropDown client template shows no items
<b>WebCaptcha</b>	Bug Fix	MemoryStream is not expanded error occurs when setting up audio using CaptchaSoundsPath property.
<b>WebChart</b>	Bug Fix	DataColumn property starts from different value when SwapRowsAndColumns is enabled
<b>WebChart</b>	Bug Fix	Format is not applied to the custom chart tooltip and is displayed as text
<b>WebChart</b>	Bug Fix	Last X axis label does not contain Path property in ChartDrawItem event and FillSceneGraph event
<b>WebChart</b>	Bug Fix	When WebKit scrollbar styling is applied, the grid cannot be scrolled properly when clicking on the

		scrollbar.
WebDataGrid	Bug Fix	Headers are misaligned in Safari under iPad when grid has column resizing
WebDataGrid	Bug Fix	WebDataGrid cannot be bound to SqlDataSource with FilterExpression using FilterParameters.
WebDataGrid	Bug Fix	Microsoft JavaScript run time error: 'Style' is null or not an object when trying to fix all columns with group fields or Multi-Column headers.
WebDataGrid	Bug Fix	SelectionChanged server side event of DropDown editor provider inside the grid doesn't fire more than once when EnableAjax of the grid is set to "true". <b>Note:</b> Also, logic was improved to raise server events of editor provider, when same value was set to 2 or more cells.
WebDataGrid	Bug Fix	Filtering enabled in WebDataGrid throws JavaScript error
WebDataGrid	Bug Fix	Pressing enter when focused on a ReadOnly column does not commit the new row
WebDataGrid	Bug Fix	Using arrow keys in DropDownProvider container causes page to scroll.
WebDataGrid	Bug Fix	Pasting from Excel results in string values, which we compare against the column type and may cause more slowdown than necessary when pasting large amounts of data. <b>Note:</b> Added logic to skip update of cell during a paste operation when current/old text (instead of current/old value) in a cell equals the new text.
WebDataGrid	Bug Fix	ExcelStyleFiltering does not recalculate scrollbar length when Virtual Scrolling is enabled
WebDataGrid	Bug Fix	Excel filter condition is wrapped into two lines when condition string is very long
WebDataGrid	Bug Fix	(No Suggestions) does not open
WebDataGrid	Bug Fix	Column Sorting is intermittent if one of the columns is an UnboundCheckbox and the active cell is being set on the client-side Initialize event. <b>Note:</b> When the grid has unbound columns and paging and sorting are both enabled, the grid will now have to bind to the whole data source so the InitializeRow event can be raised for all records and the unbound values provided for all records before sorting is applied. Only the records on the page will be rendered. There is no other way to do this as we need all the unbound values for the grid to be sorted correctly.
WebDataGrid	Bug Fix	Grid styles don't work properly under Safari and Chrome
WebDataGrid	Bug Fix	WebDataGrid does not work with type RowVersion. <b>Note:</b> Filtering, Editing, and Adding is not supported for the RowVersion data type.

<b>WebDataGrid</b>	Bug Fix	Error while sorting certain column in the grid. <b>Note:</b> When setting the Sort property on the Sorting behavior each column name needs to be encoded in the sort string. EncodeColumnName method was created for this off of the Sorting behavior.
<b>WebDataGrid</b>	Bug Fix	Filtering dropdown closes when clicking scrollbar in IE10
<b>WebDataGrid</b>	Bug Fix	WebDataGrid Filtering dropdowns close when scrolled on IE10
<b>WebDataGrid</b>	Bug Fix	Unbound columns don't sort correctly. <b>Note:</b> When the grid has Unbound columns and paging and sorting are both enabled, the grid will now have to bind to the whole data source so the InitializeRow event can be raised for all records and the unbound values provided for all records before sorting is applied. Only the records on the page will be rendered. There is no other way to do this as we need all the unbound values for the grid to be sorted correctly.
<b>WebDataMenu</b>	Bug Fix	Menu does not open on click if the browser is not the active window
<b>WebDataTree</b>	Bug Fix	WebDataTree is failing 508 Standards, Section 1194.22 (a) rule 1.1.2., as there is a hidden input rendered without an alt attribute.
<b>WebDataTree</b>	Bug Fix	[WebDataTree] When dragging a node to another tree and then drag it back to its original position - the node is replicated in the both trees
<b>WebDialogWindow</b>	Bug Fix	The dialog window does not resize properly when on Modal property is set to true in IE9.
<b>WebDropDown</b>	Bug Fix	New items' text is undefined after loading items on demand when EnableClientRendering = "true"
<b>WebDropDown</b>	Bug Fix	Dropdown does not close when focus is lost by hitting tab. <b>Note:</b> The opening and closing behaviors have been fixed in the case of keyboard navigation and blur. The events now fire consistently and are fired only once upon each interaction.
<b>WebDropDown</b>	Bug Fix	[Samples] WebDropDown dropDownClosing event fires twice on blur
<b>WebDropDown</b>	Bug Fix	Drop down list which is opened by "Alt + down arrow" remains displayed although it has lost focus. <b>Note:</b> The opening and closing behaviors have been fixed in the case of keyboard navigation and blur. The events now fire consistently and are fired only once upon each interaction.
<b>WebDropDown</b>	Bug Fix	the getLength() function to get the number of items in the control returns an incorrect count at the client-side Initialize stage
<b>WebDropDown</b>	Bug Fix	The DropDownItems' Target property does not work
<b>WebDropDown</b>	Improvement	Cannot postback with Enter and Tab keys while filtering and using cascading drop downs
<b>WebDropDown</b>	Bug Fix	DropDown item cannot be selected upon down arrow key press once the value is cleared with Backspace

		key
<b>WebHierarchicalDataGrid</b>	Bug Fix	The Child grid's filter input box extends out of bounds after choosing a condition and both (No Suggestions) and Width are set to a fixed pixel length and the horizontal scrollbars are rendered.
<b>WebHierarchicalDataGrid</b>	Bug Fix	When filtering by a large value like 999999999999999, the value passed in the filtering condition is NaN after any following AJAX request.
<b>WebHierarchicalDataGrid</b>	Bug Fix	The Row Updating event doesn't fire for child bands when they are created dynamically. <b>Note:</b> I created a new event called BandViewStateLoaded, which should be handled and that is where the event handler for child band behaviors needs to be reassigned.
<b>WebHierarchicalDataGrid</b>	Bug Fix	Sorting and column ordering getting lost when tracing is enabled
<b>WebHierarchicalDataGrid</b>	Bug Fix	Excel style filter dropdown item of date column is not coming in sort order as ascending
<b>WebHierarchicalDataGrid</b>	Bug Fix	Hidden column of control is visible after sorting when control is placed in WebTab
<b>WebHierarchicalDataGrid</b>	Bug Fix	Incorrect control's row count when EnableDataViewState as true with paging
<b>WebHtmlEditor</b>	Bug Fix	<p>line break; greater than, less than elements being left behind in HTML after all HTML deleted from editor. <b>Note:</b> Actual bug is in Chrome and can be reproduced with the following code (run, do the same entries as in WebHtmlEditor and press a button to get content of editor). After all content was deleted, Chrome may return "&lt;br&gt;" or &lt;div&gt;&lt;br&gt;&lt;/div&gt;" instead of empty string. Extra logic was added to ignore those dummy values.</p> <pre>&lt;body onload="document.getElementById('iframe1').contentDocument.designMode='On'"&gt; &lt;input type="button" onclick="alert(document.getElementById('iframe1').contentWindow.document.body.innerHTML)" value="getInnerHTML" /&gt; &lt;iframe id="iframe1" style="width:300px;height:100px;border:1px solid red;background:cyan;"&gt;&lt;/iframe&gt; &lt;/body&gt;</pre>
<b>WebHtmlEditor</b>	Bug Fix	Cursor goes to the bottom of the input area when pasting some characters with IE.
<b>WebImageButton</b>	Bug Fix	Not able to fetch the correct value of checkbox using click event of control using shortcut key Alt + S. <b>Note:</b> Raising click event within IPostBackDataHandler.RaisePostDataChangedEvent was suppressed for all client side triggers (mouse, enter, space, accesskey). Click is raised only by IPostBackEventHandler.RaisePostBackEvent

<b>WebScriptManager</b>	Bug Fix	Secure CDN links for ASP.NET component not working. <b>Note:</b> The names in the CSS now have the same capitalization as the file names in the CDN
<b>WebTab</b>	Bug Fix	Exception in IE8 when selected index of WebTab is changed on client and WebTab is hidden
