Release Notes

Component	Product Impact	Internal Issue	Description
Framework	Bug	212610	A reference to a design time only assembly EnvDTE.dll is part of a deployed Infragistics ASP.NET project.
UltraChart	Bug	220044	Running UltraChart, may sometimes result in an "Parameter is not valid" exception.
WebDataGrid	Bug	219524	If WebDataGrid cell editing behavior mode EnableOnKeyPress is activated, and if a cell, with drop down as a provider, is in edit mode, then typing a letter in the WebDropDown's empty input, will not increase drop down list size.
WebDataGrid	Bug	220074	When WebDataGrid has Editing behavior enabled, with property EnableOnKeyPress set to true, and has Editor provider, then typing a character, blurring the editor and then typing a new value, will not save the latter value.
WebDataGrid	Bug	218374	When WebDataGrid has Batch Updating behavior enabled and if a random cell is edited with different values, then using the client-side clearBatchUpdates method, will not revert the cell's previous value.
WebDataGrid	Bug	219434	When WebDataGrid has defined TemplateDataField, containing a custom image button, and also has Selection and Editing behaviors enabled, the latter defining a delete button, then pressing the delete button will not only delete the selected rows.

Infragistics® ASP.NET

WebDataGrid	Bug	219627	When WebDataGrid has Editing behavior enabled and has drop down as a provider, if a cell with such a provider is in editing mode, then clicking in the grid header and loosing cell's focus, results in Incorrect function exception to be thrown.
WebDataGrid	Bug	218864	When WebDataGrid has Editing behavior enabled and has defined a DropDownProvider for one of its columns and the drop down property EnableMultipleSelection is set to true, then it is possible to have multiple selection, while adding a row, but the same is not valid, while editing a cell in the row.
WebDataGrid	Bug	213280	When WebDataGrid has Editing behavior and has EnableOnKeyPress property enabled for cell editing; has a drop down as a provider with EnableCustomValues property enabled, then if typing in the provider, the first item that matches the search criteria, is not selected.
WebDataGrid	Bug	219945	When WebDataGrid has Filtering behavior, with enabled CaseSensitive property, then if the grid is bound to a DataTable an exception is thrown and case sensitivity is disabled.
WebDataGrid	Bug	219458	When WebDataGrid has Filtering behavior enabled and has serious number of columns, then filtering will result in a thrown client-side exception.
WebDataGrid	Bug	218480	When WebDataGrid defines an Unbound column on server-side, then setting its value in the code-behind, throws a NullReferenceException.
WebDatePciker	Bug	218080	If WebDatePicker value is changed on the server side, and the value contains day, larger than 28, then focusing and blurring the editor will change the already set value.
WebDatePicker	Bug	216879	When WebDatePicker has image URL set for a CustomButton, then InvalidCaseException is thrown.
WebDocumentExporter	Bug	218753	WebDocumentExporter cannot export properly Thai characters.
WebDropDown	Bug	218363	When disabled item is clicked in the WebDropDown, it changes its style in Internet Explorer 11.
WebDropDown	Bug	215527	When WebDropDown is placed at the bottom of the page, inside a container with absolute position and automatic overflow, then opening the drop down and trying to scroll, will close it.

INFRAGISTICS

Infragistics® ASP.NET

WebDropDown	Bug	217237	When two WebDropDown controls are placed on a page, and the first WebDropDown list is opened, then trying to blur, will result into focusing the same drop down input again, after some milliseconds.
WebDropDown	Bug	217369	When WebDropDown input is coming from IME keyboard, then entering a text and taking it, using client-side method get_currentValue or server-side drop down property CurrentValue, will result in a composition sting value instead of the committed string.
WebDropDown	Bug	217891	When WebDropDown has Multi-selection behavior enabled and if we select and deselect list items, using the following approach - mouse down on list item checkbox and mouse up on an another list item checkbox, then the list items are not selected/deselected properly.
WebHtmlEditor	Bug	218130	A picture cannot be inserted in the WebHTMLEditor control, when the control is opened under Microsoft Edge browser. **Note:** There is still an outstanding bug with modal window width/height settings that are only being respected if Microsoft Edge is maximized, see: https://developer.microsoft.com/en-us/microsoft-edge/platform/issues/5633598/
WebHtmlEditor	Bug	216356	WebHTMLEditor Find and Replace, and Zoom functionalities are not working in Internet Explorer 11.
WebImageButton	Bug	212093	WebImageButton is not clickable, when using Internet Explorer 11 Compatibility mode.
WebSchedule	Bug	220546	If you try to remove a WebSchedule activity in server-side, by calling WebScheduleGenericDataProvider's RemoveActivity method, then a NullReferenceException is thrown.
WebTab	Bug	217515	When WebTab property AutoSize is enabled and the content of one of the tabs has a page that defines a WebHierarchicalDataGrid control, then expanding a grid child band, then scrolling down the page to the bottom and expanding another child band, results in resetting the scrolling position.
