Release Notes

Component	Product Impact	Internal Issue	Description
WebCaptcha	Bug	235818	<i>WebCaptcha</i> does not render images from the following formats: <i>png</i> and <i>gif</i> .
WebDataGrid	Bug	234635	When <i>WebDataGrid</i> has defined grouped columns settings using the <i>GroupField</i> behavior then the grid group layout is not rendered according to the defined settings.
WebDataGrid	Bug	235041	When <i>WebDataGrid</i> is rendered in Internet Explorer 11, then there is a small gap between grid top border and its header.
WebDataGrid	Bug	236187	When <i>WebDataGrid</i> has percent editor as a provider, and when entering a value, loosing focus and committing the new row using the client-side <i>CommitGridNewRow()</i> method, then the newly added value is shown with doubled percent sign, instead of displaying it just once.
WebDataGrid	Bug	234900	When <i>WebDataGrid</i> has <i>Sorting</i> behavior enabled and the grid is initially invisible, when the following steps are executed: on the server-side clear data source, clear sorted columns and rebind grid; sort by a column; again clear data source, sorted columns and rebind (the grid should be displayed as not sorted); make a postback, without any other server-side operation; then the grid shows again as sorted by the column, even the sorting is cleared and the column is not sorted again.

Infragistics® ASP.NET

WebDataGrid	Bug	236426	When <i>WebDataGrid</i> has <i>Column Fixing</i> behavior enabled and the control is defined inside a <i>WebTab</i> control tab, which is not initially selected, even the grid height property is defined, when the tab is selected, the grid height is not correct and the column fixing bar is not rendered properly.
WebDropDown	Bug	234658	If <i>WebDropDown EnableCustomValues</i> option is disabled, then typing the first letters for an item, available in the list, and hitting backspace key, doesn't allow you to continue writing and fully typing the whole item.
WebDropDown	Bug	235459	When <i>WebDropDown</i> has defined the following options: <i>DropDownOrientation</i> with value <i>TopLeft</i> ; <i>DropDownContainerHeight</i> with empty string as a value; <i>DropDownContainerMaxHeight</i> to <i>200px</i> ; when opening the drop down it is not positioned correctly.
