## Release Notes

Component	Product Impact	Internal Issue	Description
UltraChart	Bug	244578	When UltraChart of type LineChart is rendered in Chrome and vertical scroll bar is visible, then scrolling down the chart and hovering a chart data item, will result in a tooltip that is shown above the chart itself.
WebDataGrid	Bug	246023	When WebDataGrid has defined Sorting behaviors and is bound to a sorted DataTable, then the sorting of the data source is not applied to the grid.
WebDataGrid	Bug	246497	WebDataGrid's scroll position does not retain when the grid is in a FormView and postback occurs by executing FormView's Update command.
WebDataGrid	Bug	246299	When WebDataGrid has defined Column Fixing behavior, calling ClearDataSource() method of the grid will also clear fixed columns.
WebDataGrid	Bug	246805	WebHierarchicalDataGrid has defined VirtualScrolling behavior with ScrollingMode set to Deferred, then when scrolling the grid incorrect tooltip is shown.
WebDataGrid	Bug	245841	When WebDataGrid has enabled Editing and specifically RowDeleting behavior and there is client-side event handler for the rowDeleting event, then if we get the browser event inside the handler, using the args.get_browserEvent() method, it will be null.

# Infragistics® ASP.NET

WebDataGrid	Bug	245325	When there are two WebDataGrid controls on the same page, and both have set their ClientIDMode properties to "Static" then the second grid will use the row edit template of the first one.
WebDataGrid	Bug	240509	When WebDataGrid has enabled Editing and specifically RowAdding behavior and its property EnableOnActive is set to true, in Firefox and Opera, while changing active cell, using Tab key, the currently focused cell is active, but it is not in edit mode.
WebDataGrid	Bug	239896	When WebDataGrid has defined an UnboundCheckBoxField and if all the rows, during initialization, has set the state of that column as checked, still the header checkbox of UnboundCheckBoxField is not checked.
WebDataGrid	Bug	243314	When WebDataGrid has defined the Filtering behavior with FilterType of ExcelStyleFilter, then it's not possible to filter by a DateTime column.
WebDataGrid	Bug	239897	When WebDataGrid has defined ColumnFixing, GroupField and Editing behaviors then headers, columns and the columns in a new row are misaligned.
WebDataMenu	Bug	243354	When WebDataMenu is opened under touch device, then swiping through menu items will result in a client-side exception.
WebDataMenu	Bug	245579	WebDataMenu is shaking when it is focused for a second time.
WebDataMenu	Bug	241223	WebDataMenu selection style is lost, when active item is changed using the keyboard.
WebDataMenu	Bug	247224	When WebDataMenu item defines an image and image tooltip, then hovering the image inside a menu item will not show the image tooltip.
WebDataMenu	Bug	240511	When WebHierarchicalDataGrid has defined Editing behavior, if we expand several child bands and a scroll bar appears and if we scroll so that a child band is partially visible, then starting to edit a cell from that band, the input for editing will be shown outside the grid view.
WebDataTree	Bug	242338	When WebDataTree is in a template of WebExplorerBar, first selected tree node always remains selected, even we try to pick a different node.
WebDialogWindow	Bug	239627	When WebDialogWindow is modal and has defined in its template several ASP.NET TextBox controls, if we try to move the focus from the first to the second TextBox, using the Tab key, instead, in Microsoft Edge, the last TextBox receives focus.

# Infragistics® ASP.NET

WebDropDown	Bug	245982	When WebDropDown allows custom values and has already an item that is selected, then the custom value will be lost, after a second postback to the server is executed.
WebHiererachicalDataGrid	Bug	245204	When WebHiererachicalDataGrid has defined several BoundDataFields in a GroupField, then grouping by a bound column will result in a missing image in the group area, at the top of the grid.
WebHtmlEditor	Bug	243818	Pasting the "bullet" special character in WebHtmlEditor control is not allowed.
WebHtmlEditor	Bug	239332	If there are more than one WebHtmlEditor controls on a page, toolbars are displayed on top of the expanded menus instances, for the previously rendered editor.
WebHtmlEditor	Bug	239333	If there are more than one WebHtmlEditor controls inside an UpdatePanel, if we insert a table in the first editor and do a partial postback in the panel, then it's not possible to insert table in some of the others HTML editors, with properties different from the default ones.
WebTab	Bug	243249	When WebTab control is loading user controls in its tabs, and this happens dynamically, then InvalidOperationException is thrown.
WebUpload	Bug	247338	When WebUpload button is hovered, client-side exception is thrown.
