## Release Notes

Component	Product Impact	Internal Issue	Description
WebDataGrid	Bug	244432	When WebDataGrid has enabled Editing and is bound to an ObjectDataSource, when updating cell in the grid then other grid data is not restored correctly.
WebDataGrid	Bug	247158	When WebDataGrid has enabled VirtualScrolling and Selection behaviors enabled, and when we scroll to initially not visible row and selected it, then redirecting to another page and going back, will reset scroll position.
WebDataGrid	Bug	247931	When WebDataGrid has defined a GroupField and the last group contains several BoundCheckBoxField columns, then after scrolling to those checkboxes and clicking then headers and rows are misaligned.
WebDataGrid	Bug	246625	When WebDataGrid has enabled Editing behavior and its EnableChildlessRowsPopulation property is enabled, then it there was problem when adding row to childless parent rows.
WebDataGrid	Bug	246777	When WebDataGrid has defined BoundCheckBoxField column, has VirtualScrolling behavior enabled and is bound to an ObjectDataSource, then clicking on a checkbox and executing a postback to the server, will result in MissingRecordException.
WebDataGrid	Bug	247161	When WebDataGrid has defined incorrect HeaderTemplate or ItemTemplate, then "Async request failed" error is thrown.

# Infragistics® ASP.NET

WebDataGrid	Bug	247429	When WebDataGrid has enabled VirtualScrolling then in Internet Explorer 11 client-side exception is thrown, because the browser doesn't support Array.from() method.
WebDataGrid	Bug	248993	When WebDataGrid has enabled VirtualScrolling and when scrolling up and down through grid rows several times, it is possible that some rows are not rendered and instead there is a blank space.
WebDataGrid	Bug	248519	When WebDataGrid has defined DropDownProvider for a column, and the data bound to the same column has HTML content, then the cell shows the HTML content instead of formatting it.
WebHierarchicalDataGrid	Bug	248207	When WebHierarchicalDataGrid has defined a GroupField, which header Text property is image, defined as HTML image tag, then it is not properly displayed.
WebHierarchicalDataGrid	Bug	245164	When WebHierarchicalDataGrid has VirtualScrolling, Sorting, ColumnMoving, ColumnResizing and Filtering behaviors, then scrolling through grid rows will result in client-side exception.
WebDropDown	Bug	247334	Even WebDropDown EnableCustomValues option is enabled, when selecting a value from the list, then typing some text after the value in the input and pressing enter, this will discard the newly added text.
WebHtmlEditor	Bug	248299	When WebHtmlEditor has custom toolbar, then null reference exception is thrown.
WebHtmlEditor	Bug	250948	When a new item is added to the WebHTMLEditor's ToolbarMenuButton menu, then null reference exception is thrown.
WebSchedule	Bug	247097	WebSchedule's recurring appointments cannot be opened in Microsoft Edge browser.
WebTab	Bug	231416	When WebDataGrid is placed inside a WebTab control tab, with AutoSize property set to false, then if the grid is not fully visible and there is a scroll, even scrolling will not allow to see full grid content.
