Release Notes

Component	Product Impact	Internal Issue	Description
WebDataGrid	Bug	245650	When WebDataGrid has a DropDownProvider and is inside a custom control, then loading dynamically the grid will cause the drop down items to disappear.
WebDataGrid	Bug	251060	When WebDataGrid has decimal column that can accept null values, when its value is changed from null to 0, UpdateMethod is not triggered.
WebDataGrid	Bug	250151	When WebDataGrid has several fixed columns and is opened in Internet Explorer 11, with browser's window that is not maximized, then maximizing the window will cause the browser to stop responding.
WebDataGrid	Bug	254279	When WebDataGrid has TemplateDataField column that has styled TextBox control, then style of the TextBox control is not preserved after a postback to the server.
WebDataGrid	Bug	253355	When WebDataGrid is bound to data with large number of records and VirtualScrolling behavior is enabled, then some of the grid rows cannot be viewed, even using the grid's vertical scroll.
WebDataMenu	Bug	255073	WebDataMenu top level's menu options are not displayed correctly.
WebDataTree	Bug	252033	When WebDataTree control receives focus, then exception is thrown.
WebDataTree	Bug	252436	When WebExplorerBar has template, containing a WebDataTree control, then exception is thrown.

Infragistics® ASP.NET

WebUpload	Bug	251380	WebUpload control returns a successful upload message, even the uploading file isn't written to the server, because the session was lost due to application pool recycle.
WebSchedule	Bug	251504	WebSchedule control doesn't work, when opened in Chrome with zoom level of 110% or more.
WebSchedule	Bug	253325	When WebSchedule recurrence meeting is configured, using the Recurrence Dialog window, with options different from the default, then opening again this window will not show the new recurrence configurations.
WebSchedule	Bug	253815	WebSchedule Recurrence Dialog window is not opened under Edge browser.
