Release Notes

Component	Product Impact	Internal Issue	Description
WebDataGrid	Bug	247158	When <i>WebDataGrid</i> has <i>VirtualScrolling</i> and <i>Selection</i> behaviors enabled, and the grid is scrolled to a row that is not initially visible, and the row is selected, then redirecting to another page and returning to the initial one will not preserve the scroll position of the grid and the previously selected row will be outside the visible area.
WebDataGrid	Bug	250151	When <i>WebDataGrid</i> has <i>Column Fixing</i> and <i>Column Resizing</i> behaviors enabled and has several fixed columns, maximizing the page will cause a browser to freeze.
WebDataGrid	Bug	251910	When <i>WebDataGrid</i> has <i>Virtual Scrolling</i> and <i>Editing</i> behaviors enabled and when cell is in edit mode, then continuously scrolling in the grid will cause a delay and eventually a <i>MissingRecordException</i> exception will be thrown.
WebDataGrid	Bug	252056	When <i>WebDataGrid</i> has <i>Batch Updating</i> enabled, when <i>postback</i> to the server is executed, using the client-site <i>commit()</i> method, grid throws "Index was outside the bounds of the array".
WebDataGrid	Bug	253680, 256851	When <i>WebDataGrid</i> has <i>Virtual Scrolling</i> behavior enabled, then trying to set scroll top position in the <i>WebDataGrid PreRender</i> event handler, will not work as expected in Internet Explorer 11.

WebDataGrid	Bug	255741	When <i>WebDataGrid</i> has Sorting and Column Resizing behaviors enabled and has defined column resizing settings for some of the columns, then on postback to the server "ViewState is corrupted" exception is thrown.
WebDataGrid	Bug	256590	When <i>UnboundCheckBoxField</i> is defined within a <i>WebDataGrid</i> Group Field, then on postback to the server an exception is thrown.
WebDataGrid	Bug	254840	Even <i>WebDataGrid</i> has Column Moving behavior enabled, it is not possible to drag grid column in Edge.
WebDataGrid	Bug	240509	When <i>WebDataGrid</i> has Editing behavior enabled and its property <i>EnableOnActive</i> is set to true, then cell in edit mode occasionally loses focus in Firefox and Opera, while navigating through cells using Tab key.
WebDataGrid	Bug	245650	When <i>WebDataGrid</i> has drop down as editor provider and the grid is placed inside user control, after dynamically recreating the control it will not be possible to open the drop down provider.
WebDataGrid	Bug	255644	When <i>WebDataGrid</i> has Editing behavior enabled and a cell value is updated, then after the data source is initialized again, the editing value is not reset and the updated value is still presented.
WebDataGrid	Bug	256810	When <i>WebDataGrid</i> has several fixed columns and has Filtering behavior enabled with its Alignment property set to Bottom, then after filtering is executed the filtering cells' width is not correct and cells are misaligned.
WebDataGrid	Bug	254562	When <i>WebDataGrid</i> is bound to <i>SqlDataSource</i> and has <i>UnboundCheckBoxField</i> defined then changing the checkbox value and doing a postback will cause the following error: "Uncaught Rows must have unique DataKeys. This key appears more than once: 1".
WebDataGrid	Bug	254399	When <i>WebDataGrid</i> has Virtual Scrolling behavior enabled, then it's not possible to scroll to the last rows in Chrome and Firefox.
WebDataGrid	Bug	256850	When <i>WebDataGrid</i> has Virtual Scrolling behavior enabled, then trying to set scroll top position in the <i>WebDataGrid PreRender</i> event handler, will not set the position properly in Internet Explorer 11 and will repeatedly fetch data.

Infragistics® ASP.NET

WebDataGrid	Bug	245188	When <i>WebDataGrid</i> has Virtual Scrolling and Selection behaviors enabled, and the first row is selected, then redirecting to another page, returning to the initial and scrolling to the bottom of the grid will not fetch data asynchronously, but all the rows are already loaded.
WebDataGrid	Bug	248911	When <i>WebDataGrid</i> has Virtual Scrolling and Editing behaviors enabled and when cell value is updated and grid is consequently scrolled up and down, then <i>PageRequestManagerServerErrorException</i> or <i>MissingRecordException</i> is thrown.
WebDataGrid	Bug	253355	When <i>WebDataGrid</i> has Virtual Scrolling behavior enabled, then after continuously scrolling the grid stops to fetch more data after loading certain amount of rows.
WebDataGrid	Bug	254879	When <i>WebDataGrid</i> is placed inside a <i>FormView</i> and has Virtual Scrolling behavior enabled and <i>FormView's</i> update command is executed, then the grid stops to fetch more data after loading certain amount of rows.
WebUpload	Bug	257915	When trying to set the WebUpload locale options, using the Properties window in Design View, they are not applied in the Code behind with the new values.
WebUpload	Bug	252441	Even defining the WebUpload's properties LabelUploadButton and LabelAddButton, their new values are not applied.
