Release Notes

Component	Product Impact	Internal Issue	Description
WebDataGrid	Bug	258304	When WebDataGrid behaviors are declared statically, disabling them dynamically will cause an IndexOutOfRangeException exception to be thrown.
WebDataTree	Bug	252033	When WebDataTree receives focus through Tab keyboard, then unhandled exception is thrown.
WebDatePicker	Bug	260052	When the date picker is placed near the bottom of a container in Chrome, the calendar is displayed away from the input.
WebDateTimeEditor	Bug	255065	When using down arrow from the keyboard to decrease value in the WebDateTimeEditor, then value becomes incorrect and can get negative values.
WebDropDown	Bug	255103	When WebDropDown has enabled multiple selection and several items are selected using the keyboard, then after closing and opening the list again will, the selected items' checkboxes will be deselected.
WebHTMLEditor	Improvement	252152	The logic for opening a file in WebHTMLEditor can allow browsing and saving a file to the server file system. IgnoreHtmlBoxClientSettings property was added to HtmlBoxUpload. By default this is set to false retaining current behavior. When set to true HtmlBoxUpload will use only the folder specified with UploadedFilesDirectory property of the editor.
WebImageViewer	Bug	257737	In Chrome, IE and Edge, when the height of the WebImageViewer is set to 100%, it does not equal the height of the parent element.

Infragistics® ASP.NET

WebWordExporter	Bug	257730	When WebDataGrid has enabled row numbering and is exported to word, using the WebWordExporter, then row numbers are not exported.
