Release Notes

Component	Product Impact	Internal Issue	Description
WebDataGrid	Bug	265245	When WebDataGrid is bound to SQL data source and a postback to the server is executed then the grid templates are not initialized.
WebDataGrid	Bug	210668	When WebDataGrid has WebDropDown as an editor provider, when cell is in edit mode and the drop down gets focus and Japanese IME input is shown, then the IME input is hidden when the drop down input is clicked using the mouse.
WebDataGrid	Bug	264322	When WebDataGrid has a hidden column and has a disabled ShowFooter property then a JavaScript exception is thrown.
WebDataGrid	Bug	265390	When an application using WebDataGrid is enabled RTL support and the grid hasn't data or has enabled ColumnFixing behavior, then scroll bar is aligned to left.
WebDataGrid	Bug	264697	When WebDataGrid is bound to DataSet and grid has EditingCore behavior enabled, then deleting and adding rows will cause an index out of range exception to be thrown.
WebDataGrid	Bug	258048	When one of the WebDataGrid columns has date format, which contains milliseconds, then filtering the column with a value that also contains milliseconds, will not properly work.
WebDataGrid	Bug	266174	When WebDataGrid has enabled EditingCore behavior and has defined DropDownProvider for a column, when a cell from that column is in edit mode, then pressing the Cancel button to exit edit mode, will cause a JavaScript exception to be thrown.
WebHierarchicalDataGrid	Bug	265391	WebHierarchicalDataGrid doesn't have RTL support for child bands.
WebHierarchicalDataGrid	Bug	258343	When all WebHierarchicalDataGrid child bands are expanded and when grid is scrolled to the bottom, then clicking a child from the visible child grid will scroll the grid to the top in IE 11.
