Release Notes

Component	Product Impact	Description
igCombo	Bug Fix	igCombo fails to process ui-igcombo-field-hover class.
igCombo	Bug Fix	Multi-selection is lost when igCombo has allowCustomValue set to true.
igDataSource	Bug Fix	Calling sort() with an empty expressions array and then using data() causes data re-ordering under Chrome.
igDataSource	Bug Fix	igDataSource is not populated when using a version of jquery.min.js newer than 1.4.4.
igDateEditor	Bug Fix	igDateEditor value gets deleted on blur when entering 60 as a value for minutes or seconds.
		igDatePicker year select dropdown cannot be opened when changeYear option is set to true.
		Note: Fixed for IE7/8/9, Firefox, Safari and Chrome. For Opera changeYear has been disabled and it is not supported.
		It is possible that in future versions, the "changeYear" will be disabled for other browsers as well, because it may break focus functionality of igEditor.
igDatePicker	Bug Fix	It is not recommended to use that option.
igDatePicker	Bug Fix	igDatePicker minDate and maxDate options are not applied.

		MinValue and MaxValue options are not properly applied when set through code.
		<p>Note: Fixed for IE7/8/9, Firefox, Safari and Chrome. For Opera changeYear has been disabled and it is not supported.</p> <p>It is possible that in future versions, the "changeYear" will be disabled for other browsers as well, because it may break focus functionality of igEditor.</p> <p>It is not recommended to use that option.</p>
igEditor	Bug Fix	
igFileUpload	Bug Fix	Deprecated image references are left over in the igUpload's CSS file (ig.ui.upload.css).
igFileUpload	Bug Fix	When clicking on "Hide details" link in Internet Explorer 7 the link doesn't change to "Show details".
igGrid	Bug Fix	There is additional button in vertical scrollbar under Internet Explorer 9 and Firefox.
igGrid	Bug Fix	Mouse hover effect and selection do not work for the last row.
igGrid	Bug Fix	Headers are misaligned with igGrid columns.
igGrid	Bug Fix	An exception is thrown when the igGrid is bound to an HTML table and the dataSourceType = htmlTableString.
igGrid	Bug Fix	Exception is thrown when cancelling rendering event for igGrid.
igGrid	Bug Fix	When a child layout has defined only height, its cells and headers are misaligned.
igGrid	Bug Fix	When autoGenerateColumns is true and grid height is defined in as a percentage, the grid headers are misaligned.
igGrid	Bug Fix	Initializing the grid with any feature after a previous grid was bound and destroyed on the same DIV element causes an exception.
igGrid	Bug Fix	When the igGrid is initialized for the 2nd time on TABLE element by destroying the previous grid instance, the grid is not appended to the DOM correctly.
		When the grid is placed inside a jQuery UI dialog, almost all of the grid's drop-down UI elements are shown behind the dialog.
igGrid	Bug Fix	<p>Note: Now dropdowns for summaries and dialogs for advanced filtering, groupby, multiple sorting dialog are rendered properly.</p>
igGrid	Bug Fix	When the advanced filtering dialog is opened from the feature chooser, the first column is always selected.

igGrid	Bug Fix	When using virtualization and the grid is scrolled horizontally, the IDs of the column header cells are not updated accordingly.
igGrid	Bug Fix	Sorting a column doesn't show correct results when virtualization is enabled and the vertical scrollbar is not in default position.
igGrid	Bug Fix	When virtualization is enabled and hiding a column the grid is not resized (grid width is not set).
igGrid	Bug Fix	When virtualization is enabled and press TAB then rows are scrolled down but scrollbar is not updated accordingly.
igGrid	Bug Fix	When virtualization is enabled and grid have fixed width then on hiding and showing last column the hide button goes behind the scrollbar.
igGridFiltering	Bug Fix	The filter summary is incorrect when local filtering and remote paging are enabled.
igGridFiltering	Bug Fix	Column headers disappear after the first character you typed is deleted in filtering condition when igGrid is bound to an HTML Table.
igGridFiltering	Bug Fix	igGridFiltering filterDialogFilterColumnsListTemplate option is declared but never used in the source code. Note: Option is removed from the source code.
igGridGroupBy	Bug Fix	Only the first grouped row is collapsed when initialExpand: false.
igGridGroupBy	Bug Fix	The GroupBy feature overwrites the sorting URL params so both sorting and group-by (or just group-by) won't work correctly when bound to an OData source.
igGridHiding	Bug Fix	When hiding a column the grid is not resized (grid width is not set).
igGridHiding	Bug Fix	Advanced filtering does not select the right column in the dropdown if Column hiding is enabled.
igGridRowSelectors	Bug Fix	When virtualization is enabled then part of the last column is hidden under the scrollbar.
igGridRowSelectors	Bug Fix	When selection, row selectors and virtualization are enabled selecting a record and scrolling down causes the selected record and its row selector to get separated.
igGridRowSelectors	Bug Fix	There are missing borders of grid's header and footer when rowSelectors are enabled on Internet Explorer 7.
igGridSelection	Bug Fix	When you select cells by dragging the mouse vertically the selection lags and sometimes misses the last cells.
igGridSorting	Bug Fix	Multi-column sorting with a column sorted by default doesn't work correctly after the page size has been changed.

igGridSorting	Bug Fix	Focus is lost when sorting a column using the space bar.
igGridSorting	Bug Fix	If a column has "allowSorting" option set to false, after setting the dataSource option the column is sortable.
igGridSummaries	Bug Fix	Summaries for all the columns are shown when columnVirtualization is set to true and only few of the columns are visible.
igGridSummaries	Improvement	Summaries are not correct when filter is applied first and then grouping.
igGridUpdating	Bug Fix	If column editor is multi-line text editor with option hideEnterKey set to false when pressing Enter key next cell is focused for editing.
igGridUpdating	Bug Fix	When updating a cell in newly added row this update is not added to the transactions on saveChanges().
igGridUpdating	Bug Fix	When you update 2 rows and execute saveChanges() the second row data is not correct. Note: In the transactions instead of values for second row, values for first are send 2 times.
igGridUpdating	Bug Fix	When update same row twice and execute saveChanges() in the transactions only first change is added.
igGridUpdating	Bug Fix	When column editor is rating and add new row the rating value is same as previously opened row.
igGridUpdating	Bug Fix	When grid has only one row position of buttons Done and Cancel is not correct.
igGridUpdating	Bug Fix	Grid doesn't enter in edit mode on pressing F2 when startEditTriggers is F2 and selection feature is enabled.
igGridUpdating	Bug Fix	In IE7 the position of buttons Delete, Done, and Cancel are incorrect when the grid's width and height are not set.
igGridUpdating	Bug Fix	Scrollbars appear when grid is empty and you are adding the first row.
igGridUpdating	Bug Fix	When grid has a rowTemplate set and the user updates a row, the dirty style is not applied.
igGridUpdating	Bug Fix	When grid has rowTemplate set and the user updates a row the RowSelector number is not correct.
igGridUpdating	Bug Fix	When grid has a width and height set, the last column editor is not fully visible.
igHierarchicalGrid	Bug Fix	The Hierarchical grid's containing div does not have the proper width when AutoGenerateColumns is true, DefaultColumnWidth is set and it is configured with the MVC wrapper.
igHierarchicalGrid	Bug Fix	When showHeader is set to false, the expander column disappears and the hierarchical grid

		becomes flat.
igHierarchicalGrid	Bug Fix	When rowVirtualization is set to true for a column layout, hovering over that layout's vertical scrollbar causes all rows in that layout to receive the hovered styling.
igHierarchicalGridUpdating	Bug Fix	When grid has rowTemplate set and update a row the row template is not applied.
		When execute saveChanges() on the hierarchical grid widget all changes in child layouts should be saved.
		Note: Implemented saveChanges() method for igHierarchicalGrid. Now application should use that method instead of corresponding method of igGrid. \$('grid1').igHierarchicalGrid('saveChanges'); On server the transaction will have new member "layoutKey", which will contain key of child igGrid which record was updated.
igHierarchicalGridUpdating	Bug Fix	
igPercentEditor	Bug Fix	Using igPercentEditor method "value" doesn't return the actual displayed text when dataMode=text or dataMode=editModeText.
		The functions appended to the JavaScript Array prototype by ig.util.js are iterated when using a regular Array.
JavaScript	Bug Fix	Note: ig.util.js is appending functions to JavaScript Array prototype, but these functions should not be iterated when iterating through regular Array.
		MVC 2 assembly is only built against CLR 4.
MVC Wrappers	Bug Fix	Note: Made sure the MVC solutions compile against CLR 3.5 and CLR 2, this means the DisplayAttribute and EditableAttribute cannot be used on CLR < 4.0.
MVC Wrappers(Editor)	Bug Fix	igMaskEditor doesn't allow entering all symbols in Firefox when the editor mask has >= 21 symbols.
MVC Wrappers(Editor)	Bug Fix	MVC editors do not render HTML attributes.
MVC Wrappers(Grid)	Bug Fix	Property FilterLogicUrlKey is missig in Filtering MVC wrapper, but exists in Filtering model.
MVC Wrappers(Grid)	Bug Fix	When aggregateTransactions is true and call saveChanges() the transactions are not correct.
MVC Wrappers(Grid)	Bug Fix	In the hierarchical grid, there are different behaviors between root and child layouts when some columns are defined and AutoGenerateColumns is true.
Samples	Bug Fix	Product, version, and buttons missing from header of help.
