Release Notes

Component	Product Impact	Description
igGrid	Bug Fix	Re-initializing the igGrid after it has been destroyed doesn't work when the grid is bound to a TABLE element - the grid's DOM is not appended correctly
igGrid	Bug Fix	The rendering event has to be fired before the dataBinding and dataBound pair of events
igGrid	Bug Fix	When igGrid has rowVirtualization set to true and row template is defined, JavaScript error is thrown
igGrid	Bug Fix	When virtualizationMode is set to "continuous" and scrolling with the mouse wheel then the page get scrolled instead of the grid
igGridFiltering	Bug Fix	Selected page is incorrect when local filtering and remote paging are in use
igGridFiltering	Bug Fix	Advanced filtering does not update its UI, when filtering is done via the API.
igGridPaging	Bug Fix	The loading indicator is not displayed when keyboard navigation is used on the page index buttons (remote paging)
igGridSelection	Bug Fix	When igGrid has Virtualization and Selection enabled, if you select a cell and then scroll so the cell goes out of the viewport and press Shift + left mouse button click to make selection then JavaScript error is thrown
igGridSelection	Bug Fix	Exception is thrown on keyboard navigation when activeCellChanging cancels activation
MVC Wrappers	Improvement	APTCA for the jQuery MCV2 assembly. Note: Infragistics.Web.MVC.dll assembly now allows running in partially trusted environment.
