Release Notes

Component	Product Impact	Description
igDataChart	Bug Fix	The element for legend item should be DIV instead of TABLE when the chart is generated through MVC
igDataChart	Bug Fix	JavaScript exception is thrown in polar series when both axes are logarithmic and overviewPlusDetailPaneVisibility is set to visible. Note: A situation where no viable points in a polar series would cause a null reference exception has been resolved.
igDateEditor	Bug Fix	When igDateEditor has enableUTCDates set to true the editor doesn't show correctly UTC datetime
igDatePicker	Improvement	There is no html helper method that allows adding of html attributes to the igDatePicker
igDialog	Bug Fix	When igGrid has GroupBy feature enabled and is placed inside igDialog columns cannot be grouped
igDialog	Improvement	There is no html helper method that allows adding of html attributes to the igDialog
igEditors	Improvement	There is no html helper method that allows adding of html attributes to the igEditors
igGrid	Bug Fix	If TD element in row template has attribute the grid is rendered wrong
igGrid	Bug Fix	When igGrid has defined width and virtualization is enabled then there is an unnecessary horizontal scrollbar at the bottom of the grid
igGrid	Bug Fix	When virtualizationMode is set to "continuous" and scrolling with the mouse wheel then the page is scrolled instead of the grid
igGrid	Bug Fix	In IE7 after scrolling horizontally, columns and column headers are not properly aligned to each other

igGrid	Bug Fix	When grid's width and height are not set and showHeader is false, then first record doesn't have top border
igGrid	Bug Fix	When (fixed) either virtualization, or rowVirtualization is enabled and there's column hiding, scrolling the grid horizontally causes JS errors on each scroll (but the scrolling succeeds)
igGrid	Bug Fix	When autoGenerateColumns is set to true, the value of the responseDataKey option is disregarded (when the data is in a deep property) and the grid is not bound to the correct data
igGrid	Bug Fix	In Opera when fixedFooters is set to false and Summaries are enabled, the igGrid rowAt method returns wrong row
igGrid	Bug Fix	Re-initializing the igGrid after it has been destroyed doesn't work when the grid is bound to a TABLE element - the grid's DOM is not appended correctly
igGrid	Bug Fix	When igGrid has GroupBy and RowSelectors features enabled (in that order), grouping by column selectors numbering is wrong
igGrid	Bug Fix	The rendering event has to be fired before the dataBinding and dataBound pair of events
igGrid	Bug Fix	When a column is hidden via its column definition (and hiding is not enabled) and virtualization or rowVirtualization is enabled, the columns are not rendered correctly
igGrid	Bug Fix	The "reset" button used in the Sorting and Column Hiding's modal dialogs doesn't reset the grid to its initial state
igGrid	Bug Fix	igGrid using rowVirtualization can't show all data when there is a horizontal scroll bar.
igGrid	Bug Fix	When igGrid has Summaries, Row Selectors, Updating and Paging enabled scrolling horizontally misaligns the grid's columns with their headers
igGrid	Bug Fix	When igGrid Virtualization, RowSelectors and Summaries are enabled then the summaries' container is smaller than the grid
igGrid	Bug Fix	When there's a modal dialog opened and the grid is destroyed, the dark overlay behind the dialog remains on the page
igGrid	Bug Fix	There is no html helper method that allows adding of html attributes to the igGrid
igGrid	Bug Fix	Merged Cells feature cannot chain with other Grid features in an MVC view
igGridFiltering	Bug Fix	Selected page is incorrect when local filtering and remote paging are in use
igGridFiltering	Bug Fix	Advanced filtering does not update its UI, when filtering is done via the API.
igGridFiltering	Bug Fix	Filter field loses focus when a character is inputted.

		Note: After filtering, grid-html-restructuring, hiding header, etc, the focus is set back to previously focused editor and selection/caret of editor is restored when it gets focus again.
igGridFiltering	Bug Fix	The columns are misaligned with the headers when the vertical scrollbar disappears as a result of removing the filtering row through the feature chooser
igGridGroupBy	Bug Fix	When igGrid has Sorting and GroupBy features enabled, the GroupBy feature overwrites the sorting URL parameters so both sorting and group-by (or just group-by) won't work correctly when bound to an OData source
igGridGroupBy	Bug Fix	Columns that should be grouped at the grid's initialization, are grouped in an incorrect order
igGridGroupBy	Bug Fix	Dragging column header over the grid records makes the header invisible while it's over the records
igGridGroupBy	Bug Fix	The expand icons used in the expander cells of the grouped row(s) are hard to tap on touch devices
igGridGroupBy	Bug Fix	When fixedHeaders is set to true and a column has been grouped and then ungrouped, an excessive white space remains between the grid's last column and its right border
igGridGroupBy	Bug Fix	When igGrid has Sorting and GroupBy features enabled if column is sorted and then another column is grouped, the grouping of the later column's data is not correct
igGridGroupBy	Bug Fix	After calling dataBind method the drag functionality of the GroupBy is lost
igGridGroupBy	Improvement	Add two options to igGridGroupBy feature. useGridColumnFormatter and groupLabelFormatter. Note: useGridColumnFormatter allows GroupBy to use formatting from the grid columns and groupLabelFormatter allows custom formatter function for group labels.
igGridGroupBy	Bug Fix	GroupBy choose columns dialog overlay stays after grid is destroyed
igGridGroupBy	Bug Fix	Top border missing on all grouped rows expander cells
igGridHiding	Bug Fix	The column hiding drop-down remain visible after it has lost focus
igGridHiding	Bug Fix	When a column is hidden by default, the dataRendered event is fired before any data is rendered
igGridPaging	Bug Fix	The loading indicator is not displayed when keyboard navigation is used on the page index buttons (remote paging)
igGridResizing	Bug Fix	When igGrid has fixedHeaders set to false and column resizing and summaries are enabled, the resize line does not appear correctly
igGridResizing	Bug Fix	When igGrid fixedHeaders is set to false, it is not possible to resize the last column
igGridRowSelectors	Bug Fix	In Internet Explorer 8 when igGrid has RowSelectors with checkboxes enabled, the row cannot be selected

igGridRowSelectors	Bug Fix	When igGrid has RowSelectors enabled and row template is used, RowSelectors start from index 2
igGridRowSelectors	Bug Fix	When igGrid has GroupBy, Selection, RowSelectors and Hiding features enabled, after grouping by column and hiding, another column RowSelectors checkboxes cannot be checked
igGridSelection	Bug Fix	Can't navigate selection with arrow keys when fixed virtualization is enabled
igGridSorting	Bug Fix	Sorting any column that's after a hidden one after dataBind() had been called, causes a JS exception and sorting isn't performed
igGridSorting	Bug Fix	When igGrid has Sorting and Hiding features enabled sorted column keeps its sorting indicator if you sort a column with lower index and there is a hidden column with index lower than the second sorted column.
igGridSorting	Bug Fix	When igGrid has Sorting, Hiding, Selection and RowSelectors enabled and you sort a column to the left of a hidden one, the sorted column styling is applied to the column on the left of the sorted one.
igGridUpdating	Bug Fix	When adding new row and required field has the focus (but it's not filled) after scrolling horizontally, then button 'Done' becomes enabled
igGridUpdating	Bug Fix	When adding new row bottom parts of the editors are invisible
igGridUpdating	Bug Fix	When in edit mode checkbox editor image is not properly aligned
igGridUpdating	Bug Fix	When autoCommit is true keyboard navigation is not correct
igHierarchicalGrid	Bug Fix	Cannot collapse a row after init/destroy/init
igHierarchicalGridSelection	Bug Fix	It is possible to select row which is container for a child layout
igHierarchicalGridUpdating	Bug Fix	When igGrid has Selection enabled, after deleting a row in the child layout the selection is not correct
igHtmlEditor	Bug Fix	igHtmlEditor does not have the proper styling in IE7.
igListView	Bug Fix	Children are not displayed when going to a sub page if igListView is defined in HTML as UL/OL hierarchy
igListView	Bug Fix	When igListView is defined in HTML as UL/OL hierarchy clicking on an item which has no child elements rises JavaScript exception
igListView	Bug Fix	When igListView is defined and markup as HTML elements and templating is used, if there is a widget in the template, it is not instantiated. Note: An <input /> in templates would not be enhanced by jQuery Mobile unless code was written to do so. Now, plain form elements are enhanced unless given an attribute not to.
igRating	Improvement	There is no html helper method that allows adding of html attributes to the igRating
igTemplating	Bug Fix	When igHierarchicalGrid has GroupBy enabled and templating is used, after grouping by column the

		template is not correct
igTemplating	Bug Fix	When using multiline row template igGrid is not working. Note: The templating engine now internally removes linebreaks and carriages from the template string.
igTree	Bug Fix	There is no html helper method that allows adding of html attributes to the igTree
igUpload	Bug Fix	There is no html helper method that allows adding of html attributes to the igUpload
igVideoPlayer	Improvement	There is no html helper method that allows adding of html attributes to the igVideoPlayer
MVC Wrappers	Improvement	APTCA for the jQuery MCV2 assembly. Note: Infragistics.Web.MVC.dll assembly now allows running in partially trusted environment.
