Release Notes

Component	Product Impact	Description
igCombo	Bug Fix	A vertical line is visible near the remove button in the igCombo Metro Theme
igDataChart	Bug Fix	Microsoft JScript runtime error: Unable to get value of the property 'dsCount': object is null or undefined. Note: A scenario where failed data source requests were throwing a non-descriptive error has been resolved.
igDataSource	Bug Fix	Using remote URL with load on demand causes an error with jQuery 1.8+
igDataSource	Bug Fix	Filtering condition yesterday is not working correctly
igGrid	Bug Fix	When the PK column is not the first defined and enableUTCDates is true, the dates columns are not correct.
igGrid	Bug Fix	Selecting all rows when continuous virtualization is enabled hangs the browser.
igGrid	Bug Fix	The igGrid is not rendering in IE8 with jQuery 1.8.3 and jQueryUI 1.9.2.
igGrid	Bug Fix	The "hide" span from the column chooser gets misaligned toward the end of the list. Note: I reformulated the vertical alignment of the element so that it doesn't become misaligned in the long run.
igGrid	Bug Fix	The position of the moved column in the moving dialog is not accurate when compared to the one in the grid when dragging in the tree
igGrid	Bug Fix	The dataBound event is fired twice on filtering
igGrid	Bug Fix	When the grid has width and height, every column has a width, you group by a column and then click the "Clear Filter" option from filtering dropdown, the columns change their original width.
igGrid	Bug Fix	Exception is thrown in the filtering module when jQuery 1.9.1. is used
igGrid	Bug Fix	The first summary in "Custom GroupBy Name" sample is wrong

igGrid	Bug Fix	Deleting a row from an observable array deletes the wrong row in the grid
igGrid	Bug Fix	Removing items directly form the data source doesn't work when an igGrid is bound to the knockout data source
igGrid	Bug Fix	Knockout - JavaScript error when using hierarchical grid and paging
igGrid	Bug Fix	KO - TypeError: can't convert null to object
igGrid	Bug Fix	JavaScript error when using Knockout + group by feature
igGrid	Bug Fix	The totalRecordsCount is inaccurate when adding or deleting rows
igGrid	Bug Fix	Wrong value in comments for rowEditDialogMaxHeight
igGrid	Bug Fix	CellSelectionChanged arguments are affected by row selectors and hidden columns. Note: The events thrown by Selection should now contain proper arguments when Hiding or RowSelectors are also enabled.
igGrid	Bug Fix	When the dataSource is remote, any action that rearranges records causes unbound values to show for the wrong records
igGrid	Bug Fix	Custom keydown event fails for grid-editor
igGrid	Bug Fix	Error occurs when adding a row to an empty grid with column templates and more than one hidden column
igGrid	Bug Fix	Hidden column's values show in the next column on the right when scrolling down (and fixed row virtualization is enabled)
igGrid	Bug Fix	Control doesn't render if you enable multi-column headers and bind though the model to a DataTable
igHierarchicalGrid	Bug Fix	The hierarchical grid bound to remote data throws a JavaScript error when you expand a row.
igHierarchicalGrid	Bug Fix	JavaScript errors occus when displaying a second child layout and using knockout.
igLoader	Bug Fix	Duplicate CSS references generated by igLoader
igLoader	Bug Fix	Resource Loader
Templating Engine	Bug Fix	Templating and formatter do not work well together
Templating Engine	Bug Fix	Block statements at the beginning of a template break trailing substitute statements
