Release Notes

| Component | Product Impact | Description |
|-----------------|----------------|---|
| igChart | Bug Fix | <p>Tooltip is not hidden once it is shown if the chart type is composite (Line + Area) and the Line are drawn on the Area.</p> <p>Note: A scenario where a mouse leave event would not be fired when transitioning between chart series has been resolved.</p> |
| igChart | Bug Fix | Series are added two times to the "series" option array |
| igGrid | Bug Fix | Microsoft Jscript runtime error is thrown with jQueryUI 1.10.1 |
| igGrid | Bug Fix | igGrid does not resize properly. |
| igGrid | Bug Fix | An error is thrown when using method of web service as data source |
| igGridFiltering | Bug Fix | The condition set in the columnSettings of the Filtering feature is returned back to default after call to dataBind API method. |
| igGridFiltering | Bug Fix | Date filter value is one day behind the selected date |
| igGridFiltering | Bug Fix | When the igGridPaging.pageSizeDropDownLocation is set to "inpager" searching results label replace the page size dropdown on filter |
| igGridFiltering | Bug Fix | Rebinding igGrid after setting igGridFiltering.columnSetting at runtime causes an error |
| igGridPaging | Bug Fix | Canceling the pageSizeChanging and pageIndexChanging events does not revert the state of the pager drop downs. |

| | | |
|-----------------|---------|---|
| | | <p>Inconsistent event sequence between local and remote pageSizeChanged event</p> <p>Note: The event sequence for remote paging was modified to match the local paging event sequence: Old event sequence: dataBinding pageSizeChanged dataBound New event sequence: dataBinding dataBound pageSizeChanged</p> |
| igGridPaging | Bug Fix | |
| igGridSummaries | Bug Fix | When grid summaries are hidden by invoking the toggleSummariesRows method, the text in the feature chooser is still "Hide Summaries" |
| | | <p>The addRow public API method ignores default values</p> <p>Note: Updating's public method addRow should now properly assign default column values to properties missing from the provided record object.</p> |
| igGridUpdating | Bug Fix | |
| igGridUpdating | Bug Fix | Row hover style lags behind mouse in Internet Explorer when enableDeleteRow is set to true |
| igGridUpdating | Bug Fix | igGridUpdating: Tab key is not processed by the last column if its editor is igComboEditorProvider |
| | | <p>Thumb for vertical scrollbar is not displayed with rowVirtualization = true after adding rows</p> <p>Note: Adding new rows through igGridUpdating should correctly update the scrollbar size when the igGrid has virtualization enabled.</p> |
| igGridUpdating | Bug Fix | |

| | | |
|-----------------------------|---------|--|
| igHierarchicalGrid | Bug Fix | Remote inhereted operations for third layout throw JavaScript error (GroupBy, Paging and Sorting) |
| igHierarchicalGridSummaries | Bug Fix | When you filter remotely the second level layout of the summaries of the third level layout are not displayed. |
| igListViewFiltering | Bug Fix | The igList filter does not clear properly in WP7 devices |
| MVC Wrappers | Bug Fix | Infragistics.Web.Mvc.HelperExtensions.GenerateSequentialID method does not generate sequential ids when control is used inside editor template or partial view |
| MVC Wrappers (Grid) | Bug Fix | Null appears as a literal string when a column template is provided in MVC |
| MVC Wrappers (Grid) | Bug Fix | With continuous virtualization rows expand to fill the height of the grid. |
| | | MVC Grid Updating Column Settings is missing the method DefaultValue() Note: The wrapper for the column setting of the Grid Updating was missing the DefaultValue() method. Now it can be set using: settings.ColumnSetting().ColumnKey("Name").DefaultValue("Text") |
| MVC Wrappers (GridUpdating) | Bug Fix | |
