--------------------	--

Release Notes

Component	Product Impact	Description
AngularJS Directives	Bug Fix	igTextEditor with Angular updates model's value at strange timing Note: The issue was caused by newer ngModelController that actively monitors the edit input (where the ng-model attribute is) and stores previous view value. That caused the \$setViewValue call on actual change to fail since we already provided the old value through parseValue when ngModel tried to set it when the control was still in edit mode. Updated comments clarify the use of parse and updated source file is already available on Github (version 1.1.4)
AngularJS Two-way data binding	Bug Fix	Two-way binding doesn't work on igCombo with angular directives.
Excel	Bug Fix	Excell DLL not signed APTCA (AllowPartiallyTrustedCallingAssemblies) Note: Adding the APTC(AllowPartiallyTrustedCallers) attribute to the excel project.
Excel Engine	Bug Fix	Type name conflict with DV.Shared and Documents.Core
igChart	Bug Fix	Axis title is overlapping with labels on category y axis when extent is set and there are labels with long strings
igChart	Bug Fix	markerOutline is not applied to legend when the line is the second line and markerType is automatic. Note: For series displaying markers, the chart legend will now use the marker outline color, not the series outline color.

igChart	Bug Fix	An error occurs with igDataChart's tooltip behavior in 2015.2 minified build. Note: An issue was found where a JavaScript error would occur silently when the mouse cursor is moved away from the chart. This has been resolved.
igChart	Bug Fix	Tooltip is not displayed for radialLine series if startAngleOffset is set to a value other than 0. Note: An issue was found in radial series where tooltips would not be displayed at some angles, when StartAngleOffset is set to a non-zero value. This has been fixed.
igChart	Bug Fix	Duplicated id attributes are generated when multiple charts are instantiated Note: The 'id' attribute was removed. It is not needed for normal legend operation. It was added because we needed to get Item model from visual
igChart	Bug Fix	crossingValue does not move value labels accordingly Note: rotation of axis labels on a radius axis with a custom Cross
igChart	Bug Fix	More friendly error message is required to identify the root cause of the problem
igColorPickerSplitButton	Bug Fix	Colors palette is cut under touch device
igCombo	Bug Fix	It's not possible to select item because of illegal special characters encoding in jQuery version 1.11.1
igCombo	Bug Fix	Autocomplete interacts incorrectly with IME input
igCombo	Bug Fix	Autocomplete confirms Japanese input
igCombo	Bug Fix	igCombo gets focus when data source is changed and value is set
igCombo	Bug Fix	igCombo selectionChanged event not fired when accepting auto-completed value
igCombo	Bug Fix	originalEvent and keyCode are missing from event parameter on selectionChanging event
igCombo	Bug Fix	igCombo with virtualization enabled and visibleItemsCount set to less than the length of bound JSON array does not create scrollbar in Chrome for Android

igCombo	Bug Fix	Keyboard shouldn't be shown when using 'dropdown' mode on touch device
igCombo	Bug Fix	Setting the text with the text method while autoComplete is enabled throws an exception
igCombo	Bug Fix	Containers are not positioned correctly in a zoomed browser window
igCombo	Bug Fix	The last item is not displayed in the dropdown list if virtualization is enabled.
igDataSource	Improvement	User-set content type is overwritten by the RESTDataSource to "text/plain" for DELETE AJAX requests Note: Improved the RESTDataSource handling of DELETE requests. With the improvement if the user specifies a contentType through the options, the data source will adhere to them even if the body content is empty.
igDialogWindow	Bug Fix	igDialog does not maximize correctly after being minimized and pinned
igDialogWindow	Bug Fix	Close button vertical alignment is slightly off
igEditor	Bug Fix	setFocus API function doesn't focus the editor's input on iPad Note: Resolved an issue causing igEditors to not enter edit mode when setFocus is called on iPad devices.
igEditor	Bug Fix	In igGrid Updating with row editing when a part of a cell value (or the whole value) is removed with Delete/Backspace keys the Done button stays disabled
igEditor	Bug Fix	Dropdown close event fired two times on blur
igEditor	Bug Fix	Focusing an editor is not selecting the text in Safari
igEditor	Bug Fix	When destroy method is called, the spin buttons and clear button are not removed
igEditor	Bug Fix	igTextEditor textChanged event not fired when selecting from dropdown
igEditor	Bug Fix	Hidden input holds a previous value for its value attribute if dataMode is set 'editModeText'.
igEditor	Bug Fix	SCRIPT438 occurs when users type Japanese text in igTextEditor
igEditor	Bug Fix	igDatePicker's year dropdown does not open when changeYear is set to true

igEditor (igCheckboxEditor)	Bug Fix	Edit cell navigation with Tab and Shift+Tab doesn't work well for checkbox editors
igEditor (igDateEditor)	Bug Fix	igDateEditor does not allow clearing on invalid input.
igEditor (igDateEditor)	Bug Fix	onClose, onSelect and itemSelected events for igDatePicker are not working for the user, because they are overridden
igEditor (igDateEditor)	Bug Fix	"NaN" if you spin down before entering value in all fields
igEditor (igDateEditor)	Bug Fix	Spinning up and down is not consistent for "year" field
igEditor (igDateEditor)	Bug Fix	Date column with spin button as time editor doesn't work properly when enableUTCDates is set to true
igEditor (igDatePicker)	Bug Fix	Closing and closed events are not fired when the editor is blurred
igEditor (igDatePicker)	Bug Fix	igDatePicker in igGrid fails to parse some dates when both the day and month contain 0 (zero)-s
igEditor (igDatePicker)	Bug Fix	"dropDownListClosed" event is fired twice if you close the calendar using the button and then click outside of editor
igEditor (igDatePicker)	Bug Fix	"dropDownListClosing" event is fired if you close the DatePicker using the dropdown button
igEditor (igDatePicker)	Bug Fix	Text editor instantiated on element previously used for date picker does not work properly.
igEditor (igDatePicker)	Bug Fix	When you change the date or time in igDatePicker with dateMode set to "editModeText" in display mode the change is not saved
igEditor (igDatePicker)	Bug Fix	textChanged event is not fired until blur in igDatePicker
igEditor (igDatePicker)	Bug Fix	All igDatePickers Calendars are disabled if one of them has disabled=true; igDatePicker with readOnly=true and dropDownOnReadOnly =true is editable;
igEditor (igDatePicker)	Bug Fix	Setting the value through the method when the enableUTCDates option is enabled doesn't return the correct value.
igEditor (igDatePicker)	Bug Fix	In edit mode when you change the time of the igDatePicker by using the keyboard, the AM/PM doesn't change
igEditor (igMaskEditor)	Bug Fix	Mask editor clears after entering two Kanji words separately

igEditor (igMaskEditor)	Bug Fix	Cannot input values containing the actual unfilled prompt character
igEditor (igMaskEditor)	Bug Fix	Ctrl + A clears input in Firefox
igEditor (igNumericEditor)	Bug Fix	igCurrencyEditor, igNumericEditor, igPercentEditor do not validate invalid IME input on Enter
igEditor (igTextEditor)	Bug Fix	igTextEditor unable to set listItems option
igEditor (igTextEditor)	Bug Fix	In igTextEditor when the length of the value equals the maxLength option an unexpected notification appear.
igEditors (KnockoutJS)	Bug Fix	igPercentEditor/igCurrencyEditor immediate update mode sets wrong values
igGrid	Improvement	Setting alternateRowStyles option at runtime has no effect on the grid
igGrid	Bug Fix	igGrid Continuous Virtualization throws error on Internet Explorer 8
igGrid	Bug Fix	Option autofitLastColumn:false is not working properly when rowVirtualization is enabled and total width of the columns is less than grid width
igGrid	Bug Fix	Horizontal scrollbar changes width when a column is fixed and commit API is called
igGrid	Bug Fix	Column widths are changed when hiding column in igGrid which has no width set
igGrid	Bug Fix	Sorting occurs when clicking a filter icon in header to open the filter dialog.
igGrid	Bug Fix	igGrid rowDeleting event fires twice when it is canceled. Note: Resolved an issue that would cause deleting a row to trigger events twice in Internet Explorer 10 and 11.
igGrid	Bug Fix	A column shown by igGridHiding's showMultiColumns method is not resizable.
igGrid	Bug Fix	Selected row's last column cell text is overlapped by vertical scrollbar when using Metro theme Note: Resolved an issue causing right-aligned text to hide behind the vertical scrollbar when its row is selected and the grid uses the Metro theme

igGrid	Bug Fix	igGrid gets much smaller in height than expected when it is resized in window resize event.
igGrid	Bug Fix	In Microsoft Edge, touch operation causes script error, after that scroll doesn't work normally.
igGrid	Bug Fix	<p>After deleting rows in igGrid with continuous virtualization enabled, igGrid got empty.</p> <p>Note: Resolved an issue causing rows to disappear when deleting multiple rows in a continuous virtualization scenario.</p>
igGrid	Bug Fix	Script error is thrown when a grid is rebound to an empty data source if there are fixed columns and virtualizationMode is set to "continuous".
igGrid	Bug Fix	<p>In Internet Explorer, last rows are not displayed in igGrid when rowVirtualization is true and virtualizationMode is "continuous".</p> <p>Note: When there are about 50 000 or more data records and rowVirtualization is enabled, virtualizationMode is "continuous" then scrolling to the bottom does not show last records.</p>
igGrid	Bug Fix	<p>igGrid's filtering behavior is not consistent between "on/not on" and the other conditions.</p> <p>Note: When filter a column with dataType: "date" and On/NotOn is set as filtering condition - filtering does not work properly in case of DateTime zone is set to (UTC+09:00) Osaka, Sapporo, Tokyo</p>
igGrid	Bug Fix	<p>inputMask validation is applied to an unexpected column.</p> <p>Note: Resolved an issue causing error notifications to appear for editors that have not yet been modified by the user on validation for row edit mode.</p>

igGrid	Bug Fix	<p>Group header's height is twice as normal header height.</p> <p>Note: A space enough is added for two icons when the header is draggable (signal of it having column moving enabled) and feature-enabled at the same time</p>
igGrid (ColumnFixing)	Bug Fix	When continuous virtualization is enabled and you hide a column from the fixed and unfixed areas data cells and header cells are misaligned.
igGrid (ColumnFixing)	Bug Fix	Error is thrown when adding a row in a grid with fixed columns
igGrid (ColumnFixing)	Bug Fix	Column widths are not correct(as set in columns collection) when virtualization is enabled
igGrid (ColumnFixing)	Bug Fix	The following combination of settings is not supported and should throw Uncaught Error exception when ColumnFixing is used: virtualization: true, virtualizationMode: fixed, columnVirtualization : false
igGrid (ColumnFixing)	Bug Fix	Uncaught TypeError exception is thrown when columnFixing/columnUnfixing events are cancelled and you try to fix column with Hiding enabled
igGrid (ColumnFixing)	Bug Fix	There is a misalignment between the fixed and unfixed part in Chrome
igGrid (ColumnFixing)	Bug Fix	<p>Scroll position doesn't reset after fixing a column with virtualization</p> <p>Note: Now the scroll position resets when a column is fixed and virtualization is enabled.</p>
igGrid (ColumnFixing)	Bug Fix	Deleting a row resets row heights when having Virtualization, Column Fixing and avgRowHeight is set
igGrid (ColumnFixing)	Bug Fix	<p>Grid with ColumFixing, virtualization:continuous and Filtering throws the script error "Uncaught TypeError: Cannot read property 'offsetHeight' of undefined" when filtering results count is zero.</p> <p>Note: When simple filtering is shown and rowVirtualization is enabled - trying to filter with a text that no records are shown - it is thrown JavaScript error</p>

igGrid (ColumnFixing)	Bug Fix	Horizontal scrollbar becomes blank when grid is initialized while it is hidden Note: If initialize grid on hidden element and there are fixed columns - when showing the element - grid is not properly rendered - horizontal scrollbar is below the grid container(it should be below unfixed scroll data container) and could not be scrolled.
igGrid (ColumnHiding)	Bug Fix	Memory leak when there is an initially hidden column Note: A memory leak was resolved when grid is repeatedly re-created and destroyed and there is an initially hidden column in its configuration.
igGrid (ColumnHiding)	Bug Fix	Hiding and unhiding a column with Row Selectors enabled doesn't preserve initially set width of the column
igGrid (ColumnHiding)	Improvement	columnChooserHeight and columnChooserWidth properties should be settable in % as well as pixels Note: After this improvement is introduced columnCooserWidth and columnChooserHeight properties (settable in Hiding feature options) type is changed to string. This change will allow users to set columnChooserWidth and columnChosserHeight properties in % as well as in pixels.
igGrid (ColumnMoving)	Bug Fix	In group column header when Column Moving icon and Hiding icon are rendered - clicking on Column Moving icon causes the dropdown to be shown and immediately after that to close
igGrid (ColumnResizing)	Bug Fix	When Summaries are enabled(with rowVirtualization) and trying to shrink column width causes misalignment between footer and data
igGrid (ColumnResizing)	Bug Fix	Column cannot be resized (from its right border) after moving
igGrid (FeatureChooser)	Improvement	FeatureChooser dialog doesn't popup when referencing jQuery 3 Alpha
igGrid (Filtering)	Bug Fix	Filtering editor is initially enabled for custom condition with requireExpr: false

igGrid (Filtering)	Bug Fix	igGridFiltering destroy method does not remove filter buttons when mode is "advanced".
igGrid (Filtering)	Bug Fix	Filtering by "Ends with" condition from the advanced filtering dialog when the search value is left blank throws an error
igGrid (GroupBy)	Bug Fix	The content is misaligned with the headers when there is initially grouped column and RowSelectors are enabled
igGrid (igGridExcelExporter)	Bug Fix	Cannot export styles when igGrid is initialized on DIV element
igGrid (igGridExcelExporter)	Bug Fix	Columns in excel file are collapsed when ExcelExporter exports grid which has no data records.
igGrid (igGridExcelExporter)	Bug Fix	Filtering is not applied on the worksheet when exporting igGrid under Internet Explorer
igGrid (Knockout)	Bug Fix	<p>In the case of using Knockout.js, jsRender column template doesn't work in initial rendering of igGrid.</p> <p>Note: Resolved an issue causing column templates to not produce correct results if they depend on values for other columns when they are executed as part of updating cell contents during KO observable updates.</p>
igGrid (Paging)	Bug Fix	<p>Hover over disabled buttons with a mouse changes the styles.</p> <p>Note: Disabled paging buttons now don't have hover style when hovered.</p>
igGrid (Responsive)	Bug Fix	<p>Exception is thrown when vertical rendering is used with initially hidden columns</p> <p>Note: Resolved an issue causing an exception on grid initialization when the Responsive feature is used with vertical rendering enabled and there are initially hidden columns.</p>

igGrid (Responsive)	Bug Fix	<p>JavaScript error is thrown "Uncaught TypeError: Cannot read property 'key' of undefined" when there is an initially hidden column and Responsive feature is enabled</p> <p>Note: Resolved an issue causing an exception on grid initialization when the Responsive feature is used with vertical rendering enabled and there are initially hidden columns.</p>
igGrid (Responsive)	Bug Fix	<p>reactOnContainerWidthChanges set to false breaks RWD mode profiles</p> <p>Note: Resolved an issue preventing Responsive from functioning correctly when the reactOnContainerWidthChanges option is disabled.</p>
igGrid (Responsive)	Bug Fix	<p>Column width set in pixels is disregarded initially when Responsive is used with Resizing</p> <p>Note: Resolved an issue with the Responsive feature applying logic meant for when responsive grid width is forced even when forceResponsiveGridWidth is set to false. This caused column widths set in pixels to appear as though they are set in percentages breaking resizing logic.</p>
igGrid (Row Edit Dialog)	Improvement	<p>When opening the dialog for a row the editor of the clicked cell should be focused (or the first cell if the edited row is the adding row)</p>
igGrid (Row Edit Dialog)	Bug Fix	<p>Subsequent openings of the row edit dialog result in errors caused by the dialog not properly reusing editors</p>
igGrid (RowSelectors)	Bug Fix	<p>Cell text is wrapped after the row is selected</p>
igGrid (RowSelectors)	Bug Fix	<p>RowSelector's checkbox can't be checked after you resize the browser window when using virtualization and Column Fixing.</p> <p>Note: After resizing window - clicking on checkbox does not select row.</p>

igGrid (Selection)	Bug Fix	<p>Grid row can't be selected after you resize the grid height at runtime when using virtualization:"continuous".</p> <p>Note: Resolved an issue preventing Selection from working if the continuous virtualization frame is re-rendered as part of a dynamic height change.</p>
igGrid (Selection)	Bug Fix	<p>On focusout the resulted activeRowChanging/ed contain the information of the last active row instead of the new one (null)</p> <p>Note: Resolved an issue causing focusout from the grid to fire the last activeRowChanging/ed or activeCellChanging/ed with event arguments suggesting the activeRow/activeCell is still the last active element. Instead the event arguments row and cell properties will be null prompting that the focus is no longer on the grid's tbody elements.</p>
igGrid (Selection)	Bug Fix	<p>igGrid cell selection does not work properly along with cell editing on the same row</p> <p>Note: Resolved an issue preventing edit mode to start for a cell that is in the same row another cell in edit mode is.</p>
igGrid (Sorting)	Bug Fix	<p>When currentSortDirection is set to its default value (null) an exception is thrown</p>
igGrid (Summaries)	Bug Fix	<p>There is a memory leak when calling igGridSummaries.calculateSummaries continuously</p>
igGrid (Summaries)	Bug Fix	<p>Summaries resets scroll position when igGridUpdating.setCellValue/updateRow API is called and Virtualization is enabled</p> <p>Note: Scroll position is now preserved.</p>

igGrid (Tooltips)	Bug Fix	<p>Tooltips doesn't display at all when the text has an ellipsis</p> <p>Note: Improved the logic behind checking if the tooltip should show when visibility is set to overflow.</p>
igGrid (Tooltips)	Bug Fix	<p>When there are grouped columns and continuous virtualization is enabled the tooltip value of the grid is wrong</p> <p>Note: Resolved an issue causing tooltips to appear as though the mouse hovers the row below when the grid is grouped and continuous virtualization is enabled.</p>
igGrid (Unbound Column)	Bug Fix	<p>Databinding a grid with an unbound column holding an input element creates a memory leak</p>
igGrid (Updating)	Improvement	<p>The grid throws a JavaScript error when a transaction is committed and there are other pending transactions.</p>
igGrid (Updating)	Bug Fix	<p>Uncaught TypeError: Cannot read property 'EmployeeID' of null exception thrown when rows are not committed and you tab through a deleted row</p>
igGrid (Updating)	Improvement	<p>Excel navigation mode is not working when row Virtualization is enabled</p> <p>Note: Updating will now automatically request new virtualization frames when navigating the edited element (row or cell) with the keyboard so that the edit mode doesn't abruptly end at the end of one.</p>
igGrid (Updating)	Bug Fix	<p>The editorForKey API is not returning the editor DOM element</p> <p>Note: Fixed an issue causing editorForKey and editorForCell methods to return the editor's container element instead of the one the editor is initialized on.</p>
igGrid (Updating)	Bug Fix	<p>Edit mode does not exit when entering a null date and clicking "Done" button</p> <p>Note: Resolved an issue causing some editors to improperly block editing if it is exited while they are focused and the browser doesn't blur them on time.</p>

igGrid (Updating)	Bug Fix	Cannot exit edit mode with ESC key when the focus is in numeric editor and the value of the editor is changed
igGrid (Updating)	Bug Fix	When you hide 2 columns and show another column - clicking on "Add new row" button throws a JavaScript error
igGrid (Updating)	Bug Fix	Cannot select value from boolean editor provider Note: Resolved an issue causing editing boolean values from a dropdown editor to be impossible.
igGrid (Updating)	Bug Fix	ui.owner is undefined in generatePrimaryKeyValue event
igGrid (Updating)	Bug Fix	Selecting a date in 19 century with a keyboard from date picker results in wrong date
igGrid (Updating)	Bug Fix	"Done" button tab index is not correct when using keyboard navigation
igGrid (Updating)	Bug Fix	When rowVirtualization is enabled scroll to the bottom and add new row then grid is scrolled at incorrect position
igGrid (Updating)	Bug Fix	Checkbox is not visible in edit mode when grid has "Superhero" theme applied
igGrid (Updating)	Bug Fix	Tabbing through cells in edit mode is not going to the next cell which is not in the viewport when there is a horizontal scrollbar in the grid
igGrid (Updating)	Bug Fix	When notificationOptions are set to mode:"popover" the validation message shows behind the row edit dialog.
igGrid (Updating)	Bug Fix	Calling setCellValue API when the grid is in edit mode will update the currently edited row
igGrid (Updating)	Bug Fix	After changing editMode option at runtime the row edit dialog stops working
igGrid (Updating)	Bug Fix	Hiding a column with continuous virtualization causes row editing to enter edit mode only for the first column
igGrid (Updating)	Bug Fix	Using validatorOptions in Updating feature and error message trigger off

igGrid (Updating)	Bug Fix	<p>excelNavigationMode does not work when grid is in partial view, validation is enabled, and Updating column settings are applied</p> <p>Note: Fixed a bug in the validator that would return the field is invalid before it has actually been validated, preventing navigating away from it.</p>
igGrid (Updating)	Bug Fix	<p>Cell is not updated when row virtualization is enabled</p>
igGrid (Updating)	Bug Fix	<p>Error when setting option through igNumericEditor during igGrid editCellStarted event</p> <p>Note: Changed the values of the editor event args for the editCellStarting and editCellStarted events to be the actual editor elements rather than their containers.</p>
igGrid (Updating)	Bug Fix	<p>Uncaught Error: cannot call methods on igNotifier prior to initialization; attempted to call method 'hide' exception is thrown when scrolling igGrid in edit mode</p> <p>Note: Resolved an issue causing a console error to be thrown when trying to scroll the grid while an igCheckboxEditor with validation enabled is in edit mode.</p>
igGrid (Updating)	Improvement	<p>"Delete" button does not stay visible on Surface after swiping left or right</p> <p>Note: Changed the interaction required for the delete button to show using touch gestures on Internet Explorer 10 and Internet Explorer 11 to match the one on Android and iOS.</p>
igGrid (Updating)	Bug Fix	<p>Date editor provider returns null dates as empty string</p> <p>Note: Date and DatePicker editors to the grid will now have allowNullValue automatically set to true so that empty input will result in adding null to the data source.</p>

igGrid (Updating)	Bug Fix	<p>If commit API is called in cellEditEnded after Tab key is pressed in edit mode, focus is given to the first editable cell in the grid.</p> <p>Note: Resolved an issue causing Updating to reset its navigation parameters between edits if a DOM changing grid API is called as part of an editing event handler.</p>
igGrid (Updating)	Bug Fix	<p>Cannot modify cell value in editCellEnding event</p> <p>Note: Resolved an issue causing setting cell value through the editCellEnding event args to not push the value as the actual value for updating.</p>
igGrid (Updating)	Bug Fix	<p>Hitting Shift + Tab in edit cell does not move edit cell for the first time when there is only one editable column</p> <p>Note: Resolved an issue causing editors to not always receive focus during navigation in Internet Explorer.</p>
igGrid (Updating)	Bug Fix	<p>ui.value argument is undefined in editCellEnding event</p> <p>Note: Resolved an issue causing value to not be assigned for the event arguments of editCellEnding/editCellEnded when editing is cancelled.</p>
igGrid (Updating)	Bug Fix	<p>It takes more (three) taps to enter edit mode</p> <p>Note: Resolved an issue preventing Selection from selecting a row or cell on the same click that ends edit mode causing an extra interaction to be required between two subsequent edits.</p>
igGrid (Updating)	Bug Fix	<p>Cell does not enter edit mode while another cell on the same row is in edit mode</p> <p>Note: Resolved an issue preventing edit mode to start for a cell that is in the same row another cell in edit mode is.</p>

igGrid (Updating)	Bug Fix	<p>When the value of a column is changed through the 'starting' event arguments, the change cannot be committed and is reversed when edit mode ends</p> <p>Note: Resolved an issue causing cell values updated through the editCellStarting event arguments from being reversed when the edit mode ends without any further interaction from the end user.</p>
igGrid (Updating)	Bug Fix	<p>Although horizontalMoveOnEnter is set to true, focus moves to next row.</p> <p>Note: Resolved an issue with Enter not moving horizontally when horizontalMoveOnEnter is enabled.</p>
igGrid (Updating)	Bug Fix	<p>Unable to enter edit mode on a sibling cell in the same row</p>
igGrid (Updating)	Bug Fix	<p>Validation message shown on keypress when onchange validation option is false</p> <p>Note: Resolved an issue that was causing validation message to appear on keypress event when onchange option of the validator is set to false.</p>
igGrid (Updating)	Bug Fix	<p>When cancelling rowDeleting event, the handler for the event fires twice in Internet Explorer 10+.</p> <p>Note: Resolved an issue that would cause deleting a row to trigger events twice in Internet Explorer 10 and 11.</p>
igGrid (Updating)	Bug Fix	<p>It takes many times to enter edit mode on touch device</p> <p>Note: Resolved an issue on iPad devices causing editing to abruptly end when the keyboard shows.</p>

igGrid (Updating)	Bug Fix	<p>Combo editor's selectionChanged event does not raise after new value rollbacks by hitting ESC key</p> <p>Note: Using ESC to revert to the original value of a combo editor during edit mode in igGrid will correctly cause selectionChanging/Changed events to fire.</p>
igGrid (Virtualization)	Bug Fix	In Internet Explorer, last rows are not displayed in igGrid when rowVirtualization is true and virtualizationMode is "fixed".
igGrid (Virtualization)	Bug Fix	Cannot scroll to the last row when fixed virtualization and Summaries are enabled
igGrid (Virtualization)	Bug Fix	<p>Vertical scroll position is reset after you resize the grid height at runtime when using virtualization:"continuous".</p> <p>Note: When scroll to the middle of the grid and change height of the grid (using option) scroll position is reset.</p>
igGrid (Virtualization)	Bug Fix	Deleting a row in a virtual grid with mode "continuous" before any virtualization frame swap happens would render all rows
igGrid (Virtualization)	Bug Fix	Scroll position is incorrect after unsorting a column in a grid with continuous virtualization
igGrid (Virtualization)	Bug Fix	Uncaught TypeError exception is thrown when there is a hidden column and row virtualization is enabled.
igHierarchicalGrid	Bug Fix	Event arguments are not correctly set for layouts when there are more than one layout in the igHierarchicalGrid
igHierarchicalGrid	Bug Fix	<p>When destroy and re-create igHierarchicalGrid memory leak occurs</p> <p>Note: Ensuring all internal events are unbound when the control is destroyed.</p>
igHierarchicalGrid	Bug Fix	Uncaught TypeError is thrown if a control API is called in dataRendered event

		<p>"Cannot determine the data source type. Please specify if it is JSON or XML data." error when child layout is not initially bound</p> <p>Note: When hierarchical grid has option initialDataBindDepth set to 0 AND on expand it is set dynamically data source for the child layout (e.g. in event igchildgridcreating) - then applying filtering/sorting for this child layout - causes JavaDcript error to be thrown.</p>
igHierarchicalGrid (Filtering)	Bug Fix	
igHtmlEditor	Bug Fix	When clicked on format list and font size dropdowns it loses text selection on Edge
		<p>igPivotGrid fails to properly calculate total number of records if some data field contains empty string</p> <p>Note: There was a problem when we use linq to filter items in nested loops. Actually only the last filtered result were taken.</p>
igPivotGrid	Bug Fix	
		<p>Data is incorrectly displayed with multiple measures</p> <p>Note: The estimation of intersection of row's and column's tuples skip the filtering for measure index.</p>
igPivotGrid	Bug Fix	
igPopover	Bug Fix	When direction is "right" and mouse over the last column popover is shown to the cell on the left
		<p>When igPopover is showing on click the previous target is being focused</p> <p>Note: The popover is not going to focus the element after the blur event is triggered for the target.</p>
igPopover	Bug Fix	
		<p>Collapsible property is not compatible with min and max properties</p> <p>Note: Fix of wrong collapse behavior of igSplitter when at least one panel have some layout limitation set (min/max size).</p>
igSplitter	Bug Fix	

igToolbar	Bug Fix	igToolbar addItem method is not working as expected
igToolbar	Bug Fix	JavaScript error appears when you try to collapse non-collapsible igToolbar
igTreeGrid (ColumnFixing)	Bug Fix	Fixing the first column in igTreeGrid with fixingDirection set to "right" and Row Selectors shifts the data rows
igTreeGrid (ColumnFixing)	Bug Fix	When Row Selectors and renderExpansionIndicator is enabled, unfixing columns makes the width of the last column 0px
igTreeGrid (Selection)	Bug Fix	Deselecting using the header checkbox in TreeGrid "triState" checkBoxMode shows wrong message.
igTreeGrid (Updating)	Bug Fix	When there's an initially fixed column and a root level row is deleted an error is thrown
igTreeGrid (Updating)	Bug Fix	When autoGenerateColumns is true clicking the expander indicator of a row enters edit mode. Note: Changed the order of click event binding.
igValidator	Bug Fix	equalTo option doesn't work with html inputs
MVC Wrappers (Editor)	Bug Fix	Data Annotation doesn't set min/maxValue on the editor itself and it's possible to enter values outside the model range
MVC Wrappers (Editor)	Bug Fix	igTextEditor Multiline value is not encoded and causes an exception
MVC Wrappers (Grid Filtering)	Bug Fix	Labels property missing from MVC wrapper Note: Labels property added to MVC Wrappers for igGrid
MVC Wrappers (Grid GroupBy)	Bug Fix	Rutime error "Infragistics.Web.Mvc.ParseException: Syntax error." is thrown when GroupBy is enabled and web application regional settings are set to "German" Note: An issue is fixed causing an exception when computer regional settings for numbers have comma (",") as decimal separator

MVC wrapper generates incorrect value for featureChooserIconDisplay mode option

Note:

Now MVC wrapper generates correct value for featureChooserIconDisplay option.

MVC Wrappers (Grid)

Bug Fix

Styling

Bug Fix

"ui-state-focus" CSS class does not have styling in the Infragistics theme
