## **Release Notes**

Work Item ID	Component	Product Impact	Description
219525	AngularJS	Improvement	When several changes in the scope are applied they are not correctly reflected in the igGrid
			Unable to update ng-model from a promise in igCombo using Angular directives  Note:
212018	AngularJS	Bug Fix	Store the model value and apply it after the new data source has been set
220072	AngularJS Directives	Improvement	igHierarchicalGrid is rendered on a DIV instead of a TABLE
216892	AngularJS Two-way data binding	Bug Fix	Updating the scope does not apply the changes to the correct cell when there are fixed columns  Note:  Use cellById API method of the grid to get proper cell which needs to updated. The problem was introduced when there are fixed columns.
217774	Excel Engine	Bug Fix	Saving a workbook with pivot table breaks the pivot table in the exported file
220873	General	Bug Fix	NuGet wrong version for the help
189051	igChart	Bug Fix	igDataChart - categoryTooltip with no data right before being destroyed
215652	igChart	Dug Eiv	[igDataChart] LegendItemTemplate callbacks are not fired  Note: LegendItemTemplates are now working for fragment sories in stacked sharts
215652	igChart	Bug Fix	LegendItemTemplates are now working for fragment series in stacked charts.

215022	igChart	Bug Fix	Legend items are not properly ordered for a composite chart if reverseLegendOrder is set true for StackedSeries.  Note:  Legend items are now ordered correctly when stacked and non-stacked series are combined, and ReverseLegendOrder is set to true.
204637	igChart	Bug Fix	The last datapoint label remains visible even the datapoint is removed and notified to the chart  Note:  A scenario when removing the last category item might leave a label on a category axis has been resolved.
204639	igChart	Bug Fix	notifyClearItems API method does not notify the update to the chart  Note:  A scenario with labels and tickmarks could be left behind when clearing a data source has been resolved.
216333	igCombo	Bug Fix	Pressing Backspace before confirmation breaks the autocomplete IME input
219244	igCombo	Bug Fix	Composing 2 Japanese characters in a row and then confirming cause their doubling
214817	igCombo	Bug Fix	No events are fired when custom value is entered
216748	igDateEditor	Bug Fix	igDateEditor fails to set min/max value when it's exceeded and revertIfNotValid is false
218752	igDateEditor	Bug Fix	Incorrect input date when changing from the last day of a long month to any day of a short month.
216938	igDatePicker	Bug Fix	itemSelected event is fired without arguments
217219	igDatePicker	Bug Fix	Incorrect selected date when changing from the last day of a long month to any day of a short month.
216620	igDatePicker	Bug Fix	igDatePicker min(max)Date is not correctly displayed

218564	igDoughnutChart	Improvement	notifyInsertItem method cannot be called <b>Note:</b> notifyClearItems, notifyInsertItem, notifyRemoveItem, and notifySetItem are now implemented as documented in igDoughnutChart
218717	igFileUpload	Improvement	After file uploaded successfully with Ajax, the client cannot receive JSON response data from the server.  Note: In case of successful upload and it is sent JSON - JavaScript error is thrown because igUpload expects ONLY XML to be sent. igUpload now parses JSON in format {error: ", serverMessage: "}
213539	igFileUpload	Bug Fix	Filename is truncated on the server if it contains ";" in it  Note:  If try to upload a file with name having character ";" - file is uploaded but the name of the uploaded file is not properly set
211227	igGauge	Bug Fix	igLinearGauge doesn't accept values of 'maximumValue' less than 0.051
217557	igGrid	Bug Fix	If the grid does not have height hasVerticalScrollbar method returns true.
219550	igGrid	Bug Fix	Empty horizontal scrollbar appears when the grid is bigger than the column sizes and its width is set in percent.
220190	igGrid	Bug Fix	Resizing the grid causes header appearance to break
220506	igGrid	Bug Fix	Dropdown calendar keeps showing in the same location when Enter key is pressed and editing cell moves down.  Note:  Resolved an issue with the end edit procedure of igGridUpdating not recognizing and closing the datepicker dropdown causing it to remain hanging on its original place.
212862	igGrid	Bug Fix	When dataType is not explicitly set the grid should auto detect it or use the default "string" type

Grid with 100% height requires its container to have explicitly set height Note:  This was not a requirement in the previous versions  igGrid 219915 (AppendRowsOnDemand) Bug Fix igGrid AppendRowsOnDemand does not function properly when initialized on a widget element that is initially detached from the document  When fixing and unfixing the last column on a resized window in a grid with 100% width the column widths are changed compared to their initial widths  214716 igGrid (ColumnFixing) Bug Fix The vertical scrollbar position is incorrect after fixing a few columns  When Column Fixing and cell Selection is enabled (and there is at least one fixed column) trying to navigate from the first cell (from the first record) as pressing key UP - grid is not scrolled to the selected cell at the bottom) in Internet Explorer  218831 igGrid (ColumnFixing) Bug Fix Scrolling is not possible with mouse wheel after unfixing a right fixed column  Hiding when having a fixed column, autofitLastColumn: false and the columns are smaller than the grid width auto-fits the headers  When Column Fixing, with direction "right" and cell Selection is enabled (and there is at least one fixed column) trying to navigate from the first cell (from the first record) of the unfixed area) as pressing key UP - grid is not scrolled  219197 igGrid (ColumnFixing) Bug Fix Fixing the last column when having continuous virtualization, grid width in pixels and fixing Direction "right" results in a gap between fixed and unfixed area of the grid Fixing and unfixing the last column when having continuous virtualization, grid width is percent shrinks the header row.  Horizontal scroll container is not at proper position when there is initially fixed columns and grid width is set in % (rowVirtualization should be enabled)  There is blank space for horizontal scrollbar when there are fixed columns and fixing direction is "right" and grid width is set in % (rowVirtualization should be enabled)

		220336	igGrid (ColumnFixing)	Bug Fix	·

220337	igGrid (ColumnFixing)	Bug Fix	Resizing grid in pixels causes white line to appear in the unfixed area when fixing direction is "right" and virtualization is enabled
			Setting dynamically width of the grid in percentage when fixing direction is "right" and
220495	igGrid (ColumnFixing)	Bug Fix	there is at least one fixed column causes width of the horizontal bar to be incorrect
220512	igGrid (ColumnFixing)	Bug Fix	Incorrect width of grid with virtualization enabled in case of grid width is set in $\%$ and there is initially fixed column
220537	igGrid (ColumnFixing)	Bug Fix	Last column is not automatically adjusted when there is fixed column and grid width is in percentage and width of the grid is changed dynamically
220556	igGrid (ColumnFixing)	Bug Fix	Changing dynamically width (in percentages) of the virtual grid (virtualization enabled) when fixing direction is "right" causes unfixed part header to be with incorrect width
218722	igGrid (ColumnFixing)	Bug Fix	Error saying fixedTable is undefined occurs when showHeader is false and Column Fixing is enabled.  Note:  When there are initially fixed columns and option showHeader is set to false - JavaScript error is thrown
218799	igGrid (ColumnFixing)	Bug Fix	Setting a column as hidden in grid with Column Fixing with columns fixed and Multi-Column Headers enabled, when unhiding columns causes column to not render properly  Note:  Grid header is not properly rendered when there are initially fixed columns and grid has Multi-Column Headers.
217368	igGrid (ColumnFixing)	Bug Fix	Scrolling speed of the unfixed part of the grid is very slow on Google Chrome 49 on Windows 7.  Note:  When there is grid with fixed columns and user tries to scroll unfixed container with mouse wheel - scrolling is very slow.

209693	igGrid (ColumnHiding)	Bug Fix	Hiding more than one column using Column Chooser when width of the grid is not set does not update it in Mozilla Firefox
219911	igGrid (ColumnHiding)	Bug Fix	igGrid Hiding does not function properly when initialized on a widget element that is initially detached from the document
			More accurate/intuitive rendering of the column indicator when using deferred mode <b>Note:</b>
209487	igGrid (ColumnMoving)	Bug Fix	Improved certain areas in the integration between Column Fixing and Column Moving. Indicators will no longer incorrectly show at the wrong place when the header hovers at same place. Fixed an issue causing the moving operation to be executed with parameters that are not the same as the indicator shows.
203407	igoria (colaminivioving)	Dug I IX	Resizing does not take into account the vertical scrollbar and some of cell text is not
217001	igGrid (ColumnResizing)	Bug Fix	fully visible after resizing
218362	igGrid (ColumnResizing)	Bug Fix	Height of the grid is incorrect after resizing a column
220483	igGrid (ColumnResizing)	Bug Fix	Resizing grid in % when columns widths are in % does not resize correctly
220563	igGrid (ColumnResizing)	Bug Fix	Exception is thrown when resizing column with API resize method and showHeaders option is set to false
			Column Resizing does not work when Multi-Column Headers and Column Fixing are enabled, and grid is initialized while it is invisible  Note:  If grid is instantiated on hidden element and there is at least one initially fixed column
210025	in Cried (Column Popining)	Due Fin	(and Column Resizing is enabled) - it is not possible to resize any column when grid is
219935	igGrid (ColumnResizing)	Bug Fix	shown.
216890	igGrid (ColumnResizing)	Bug Fix	Column outerWidth gets larger by 3px than the size specified in resize method when rowVirtualization is enabled.

217213	igGrid (ColumnResizing)	Bug Fix	When using Multi-Column Headers, Hiding and Resizing, can't resize the second from the last column after showing the last column.  Note:  When the grid has Multi-Column-Headers and last column is hidden showing it causes the second from the last column - can't be resized
219912	igGrid (FeatureChooser)	Bug Fix	igGrid Feature Chooser does not function properly when initialized on a widget element that is initially detached from the document
217507	igGrid (Filtering)	Bug Fix	filterDialogClosed event raises but the dialog is not actually closed  Note:  Event now raises after the dialog is closed.
219640	igGrid (Filtering)	Bug Fix	igGrid Filtering does not function properly when initialized on a widget element that is detached from the document
219702	igGrid (Filtering)	Bug Fix	Holding backspace on filter prevents filter from being cleared
219704	igGrid (Filtering)	Bug Fix	Text in filter Row is not localized for bool values
218972	igGrid (Filtering)	Bug Fix	rowVirtualization is not compatible with selectRow method while filtering the grid, it loses focus from the textbox of the filter.  Note:  Resolved an issue causing focus on rows from igGridSelection to be retained between virtualScrollTo API calls.
217214	igGrid (Filtering)	Bug Fix	Can't paste numeric text in the numeric filter editor.
215721	igGrid (Filtering)	Bug Fix	Grid throws an error when filtering is performed through API call while all filtering settings for all columns have allowFiltering option set to false
215249	igGrid (Filtering)	Bug Fix	filterDialogColumnDropDownDefaultWidth option does not change the width of the dropdown's inner input element.
220967	igGrid (Filtering)	Bug Fix	The first column is not shown in dropdown list on Advanced Filter window when Column Fixing is enabled and there is an initially hidden column
216435	igGrid (GroupBy)	Bug Fix	Grouping from different layouts when there is load on demand enabled is throwing an error

21991	4 igGrid (GroupBy)	Bug Fix	igGrid GroupBy does not function properly when initialized on a widget element that is initially detached from the document
21830	6 igGrid (GroupBy)	Breaking Change (Visual Appearance)	Column key is displayed instead of column header text in the grouping summary row when group summaries are enabled
21491	igGrid 7 (igGridExcelExporter)	Bug Fix	When responseDataKey for both parent and child definitions is set to empty string "" a JavaScript error is thrown: _dataToExport is undefined
21903	, , ,	Bug Fix	Trying to export igHierarchicalGrid with unbound column results in an error
21595	igGrid 5 (igGridExcelExporter)	Improvement	User is not able to change event args values in event handlers
21747	1 igGrid (Knockout)	Bug Fix	When the data source is changed with another containing the same PKs, updating fails to refresh the UI in a Knockout grid  Note:  Resolved an issue in the Knockout grid extension causing rebinding with a data source containing the same PKs to fail when updating the UI through the rebindCells routine.
21930	igGrid (Multicolumn 5 headers)	Bug Fix	Multi-Column Headers don't render the specified rowSpan for the correct TH elements  Note:  If it is set option 'rowspan' for column object in Multi-Column Header scenario using MVC wrapper - it does not work as expected - it behaves like it is not set. igMultiColumnHeader feature expects option with name 'rowspan' but MVC wrapper renders it with name 'rowSpan'. We have deprecated option rowspan and it should be used option rowSpan. For backward compatibility for now both options - rowspan and rowSpan - could be used.

217291	igGrid (Responsive)	Bug Fix	\$(".ui-iggrid-scrolldiv") height is different when Responsive feature is enabled  Note:  Resolved an issue causing the grid's scroll container to be improperly sized when the Responsive feature is enabled.
209302	igGrid (RowSelectors)	Bug Fix	"Select all" overlay cannot be tabbed using keyboard navigation
216216	igGrid (RowSelectors)	Bug Fix	Calling igGridSelection.selectRow API in igGrid.rowsRendered event does not check the Row Selectors checkbox  Note:  Resolved an issue preventing Row Selectors from reacting to Selection API calls if they are done earlier than the last event in the grid's rendering chain.
217204	igGrid (Selection)	Bug Fix	multipleCellSelectOnClick option has no effect on the behavior of clicking cells  Note:  Resolved an issue preventing the multipleCellSelectOnClick from functioning correctly.
217520	igGrid (Selection)	Bug Fix	When Selection and Virtualization is enabled clicking on a last cell changes the horizontal scrollbar position in Internet Explorer
218974	igGrid (Selection)	Bug Fix	Another cell can't be selected when a cell is being edited and it is hidden in the scroll container.  Note:  Resolved an issue with Updating and Selection integration causing the grid to scroll to the cell or row that stopped being edited when editing ends due to a click on another row at a different scroll position.
215793	igGrid (Selection)	Bug Fix	Deselect row does not take into account virtualization frame start row index <b>Note:</b> Resolved an issue with deselectRow and deselectCell causing unexpected behavior in virtualization scenarios.
216337	igGrid (Sorting)	Bug Fix	Sorting style is lost if the grid is data bound and the page size or index is changed

216494	igGrid (Sorting)	Bug Fix	unsortColumn API does not remove the sorting indicator by index when the sorting is remote
217765	igGrid (Sorting)	Bug Fix	Sorting indicator appears after the second column sorting and calling dataBind <b>Note:</b> When calling dataBind(from API) after sorting is applied on 2 different columns causes sorting indicator to be shown to these 2 columns.
217283	igGrid (Sorting)	Bug Fix	Sorting style isn't removed after changing data source when virtualization = TRUE and persist = FALSE.
214911	igGrid (Summaries)	Bug Fix	Summaries don't have padding when there's a scrollbar in the grid
218809	igGrid (Summaries)	Bug Fix	Calling igGridUpdating.updateRow when fixed virtualization is enabled will destroy the igEditorFilters causing a JavaScript error to be thrown on subsequent edits <b>Note:</b> Resolved an issue causing editors to be destoyed and no editing to be doable when an Updating API call is done while the grid is in edit mode and there are virtualization and Summaries enabled.
218810	igGrid (Summaries)	Bug Fix	Calling igGridUpdating.updateRow on a grid which is in edit mode will exit edit mode if Summaries and row virtualization are enabled  Note:  When Summaries and Updating are enabled in virtual grid - and user is in edit mode - calling API funciton igGridUpdating.updateRow causes grid to exit edit mode.
217827	igGrid (Tooltips)	Bug Fix	igGridTooltips makes the igGridPaging element moves on hover
212641	igGrid (Updating)	Bug Fix	Cannot exit edit mode with ESC key in Firefox when the value of the editor is already changed
212661	igGrid (Updating)	Bug Fix	Value changes in the editCellEnding event arguments only work if the editor value has changed during edit mode.
215703	igGrid (Updating)	Bug Fix	When continuous virtualization is enabled you cannot delete all rows from the grid
216593	igGrid (Updating)	Bug Fix	The Delete button does not disappear when changing pages on iPad
216643	igGrid (Updating)	Bug Fix	Swipe to show Delete button works for group rows.

igGrid (Updating)	Bug Fix	When opening the dialog for a row using 'startEdit' API the respective cell editor should be focused
igGrid (Updating)	Improvement	Cannot change columnSettings option in editRowStarting event  Note:  Added the possibility of columnSettings being settable in a handler of the editRowStarting event.
igGrid (Updating)	Bug Fix	The grid scrolls back to the top when a cell is updated in a grid with Virtualization and Summaries enabled
igGrid (Updating)	Bug Fix	In grid with Virtualizatoin enabled when deleting row - summaries are not updated
igGrid (Updating)	Bug Fix	setCellValue cannot set a new PK for a row
igGrid (Updating)	Bug Fix	If updateRow is called with a list of values containing some for read-only columns while their row is in edit mode an error is thrown
igGrid (Updating)	Bug Fix	Grid framework throws a TypeError on entering edit mode once jQuery UI tooltip is attached to the cell  Note:  Resolved an issue with Updating and other features failing to recognize which column a cell element belongs to when the ARIA-describedby attribute is modified by a third-party control resulting in an unspecific error.

igSparkline	Bug Fix	If verticalAxisVisibility is collapsed in Chrome cannot be set again to visible
igSplitter	Bug Fix	Resizing of the splitter causes enlarge of the opposite size with 2px constantly
igSplitter	Bug Fix	[igSplitter with Bootstrap] Not able to click down split bar triangle icon and when click on up triangle icon, it stick at the top of the page and not able to move it back.  Note:  The Bootstrap styles override Ignite UI styles and hide the clickable area of the button so one cannot click on the down arrow. The fix is to override Bootstrap styles but strictly for these 2 collapse/expand buttons of the splitter. Already set new box-sizing style for these buttons.
igSplitter	Bug Fix	Splitter Pane sizing is not set in Edge when the CSS file for Bootstrap is added to the page  Note:  Edge present different boxing model than other browsers and present border width "" insead of "Opx". This causes the bug.
igTextEditor		Full width numeric characters are converted to half width after IME composition end.
