Release Notes

Work Item ID	Component	Product Impact	Description
221400	igCombo	Bug Fix	Incorrect ID for Combo when utilizing ComboFor MVC helper with a model with a nested object
224541	igEditor	Improvement	Editor client event name mismatch (MouseLeave)
221280	igEditor	Bug Fix	Incorrect ID for TextEditor when utilizing EditorFor MVC helper with a model with a nested object Note: Resolved an issue where the EditorFor MVC helper used on a nested model property would not generate the correct ID for the jQuery script portion.
220775	igEditor (igDateEditor)	Bug Fix	Edit mask is lost after opening the dropdown
221418	igEditor (igDatePicker)	Bug Fix	Notification for exceeding the minimum value is shown after changing the minDate at runtime
225623	igEditor (igMaskEditor)	Bug Fix	Allow setting an emptyChar to not-required position
221118	igEditor (igNumericEditor)	Bug Fix	Dropdown keyboard interaction for navigate through the list items not working
220712	igEditor (igTextEditor)	Bug Fix	Typed text is reverted to previous value in case the drop down is opened
220627	igFunnelChart	Improvement	igFunnelChart - add missing text color options Note: Added textColor and outerLabelTextColor properties
220538	igGrid	Bug Fix	The notification message for reverting the igDatePicker to a valid min/max value should be not shown when canceling the change/update in igGrid
225866	igGrid (ColumnFixing)	Bug Fix	Last column`s summary is not displayed when there is initially fixed column and fixed virtualization enabled
226718	igGrid (ColumnFixing)	Bug Fix	No error is thrown if ColumnFixing is enabled and column widths are set in % and there is a defaultColumnWidth set. Note: An error is thrown indicating a not supported scenario.

			When showHeader = FALSE fixed area's header can't be hidden. Note: When there is at least one fixed column and set option showHeader to false then fixed header does not hide.
226135	igGrid (ColumnFixing)	Bug Fix	
219581	igGrid (ColumnHiding)	Bug Fix	Vertical scrollbar appears when un hiding a column and the grid height is bigger than the rows combined
221919	igGrid (ColumnMoving)	Bug Fix	Drop indicators are not displayed correctly
221209	igGrid (Filtering)	Bug Fix	Simple Filtering button is misaligned when filterButtonLocation="right".
225658	igGrid (Filtering)	Bug Fix	When trying to open the filter dialog via the keyboard from the filter drop-down an error is thrown
222983	igGrid (GroupBy)	Bug Fix	Keyboard navigation is not working when row is selected and there is at least one grouped record
224110	igGrid (GroupBy)	Bug Fix	Ungrouping a column with Updating enabled causes the Add row to shift in Internet Explorer
220776	igGrid (Summaries)	Bug Fix	Header icon of the last column gets hidden when grid is initialized on a widget element that is initially detached from the document
			Editors are trimmed when editMode is set to "dialog" in igGrid Note: Changed the default width of the RowEditDialog to 400px to make sure it fits its editors when they are set to default width.
224179	igGrid (Updating)	Breaking Change (API)	
			Add New Row is not updated with new readOnly settings for columns. Note: Resolved an issue in igGridUpdating causing not all cells to update their "readonly" attributes when changing if columns should be read-only from the feature's columnSettings.
226001	igGrid (Updating)	Bug Fix	
220884	igGrid (Virtualization)	Bug Fix	Resizing in px when Virtualization is enabled and autofitLastColumn is false, causes grid data table width to be greater than grid THEAD width
185895	igHierarchicalGrid (Paging)	Bug Fix	Paging does not persist the state of the child grids in Hierarchical Grid
221207	igHierarchicalGrid (Updating)	Bug Fix	When hovering a Hierarchical Grid (without height) child the Delete button shows twice with certain offset between the two
220802	igValidator	Bug Fix	No indication for optional/required fields

221616	MVC (Editor)	Bug Fix	<p>Unable to reuse Regex for client and server-side validation</p> <p>Note: Added extra escaping when rendering the string regex to preserve the intended state after rendering and new RegExp() creation on the client.</p>
221618	MVC (Editor)	Improvement	<p>DataAnnotation validation for Email and Compare to another field not working</p> <p>Note: Added support for EmailAddress and Compare Data Annotation Validation Attributes</p>
225131	MVC (Grid Paging)	Breaking Change (API)	<p>TotalRecordCount is exposed to the end user when it is supposed to be a private member/method</p> <p>Note: TotalRecordCount is removed from the public API.</p>
222468	MVC (Grid Updating)	Bug Fix	<p>SpinDelta option is not exposed to the MVC wrapper(ColumnUpdatingDateEditorOptionsWrapper)</p> <p>Note: Added SpinDelta to DateEditor Model and Wrapper</p>
220653	Script Combiner	Bug Fix	<p>Script Combiner does not load the widget dependencies</p>
