Release Notes

Work Item ID	Component	Product Impact	Description
242360	Builds	Bug Fix	Uncaught SyntaxError (Invalid or unexpected token) occurs when a custom build js file with Japanese locale created by the custom build page is used
247930	igCategoryChart	Bug Fix	Setting YAxisTitleAngle = 0 is not reflected on UI. Note: The default value of CategoryChart.YAxisTitleAngle was corrected to its appropriate value of -90.
GH1627	igCombo	Bug Fix	Highlight mode is not applicable when the input value and the firstly met dataSource item are equal
GH1441	igCombo	Bug Fix	Items are not correctly rendering when the data source items are less than the Combo visible items count with grouping and virtualization enabled
249230	igDataChart	Bug Fix	Grid blocks mouse wheel from tunneling to cell content in IE. Originally: [Chart does not zoom in igGrid cell by using mouse wheel scroll]
249375	igDataChart	Bug Fix	JavaScript error thrown when creating a column datachart and isHighlightingEnabled is enabled Note: A scenario where you didn't get an accurate error when you hadn't loaded the interactivity module, but it was required, has been resolved.

			Blurry Charts in 17.2 release Note: A scenario where the data chart could appear a bit blurry when displayed at non integer sizes on low DPI scaled screens has been resolved.
247509	igDataChart	Bug Fix	
			JavaScript DataChart size is not correctly calculated when browser zoom level is changed from 100% Note: A scenario where resizing a component while its display is set to none would cause an issue has been resolved.
242424	igDataChart	Bug Fix	
GH1609	igDatePicker	Bug Fix	Event parameters for onChangeMonthYear are 'undefined'.
			Input value is not reverted when invalid input is entered in igDateEditor using IME keyboard in Firefox and IE11
GH1525	igDatePicker	Bug Fix	
GH1453	igDatePicker	Bug Fix	Entered date is converted to today's date when pressing the Enter key
			Input value is discarded upon lost focus while in composition mode on IE11 and Firefox
GH1417	igDatePicker	Bug Fix	
GH1358	igDatePicker	Bug Fix	igDatePicker does not fallback to different than default regional settings.
GH1391	igDialog	Bug Fix	Dialog is not destroyed when there is an open/close animation
GH1204	igDialog	Bug Fix	openAnimation prevents modal background from appearing
GH1455	igEditors	Bug Fix	The active item is missing styles
GH1362	igEditors	Bug Fix	Editors regular expressions not properly escaped
247339	igGrid	Bug Fix	When GroupBy and Hiding are applied on Internet Explorer an error is thrown.
GH1580	igGrid	Bug Fix	Feature chooser icons are not styled correctly when igGrid is used in igSplitter
GH1405	igGrid	Bug Fix	Grid width is incorrect when there are fixed columns and virtualization
			Expand/collapse column width is not correctly calculated for more than one grouped columns after calling "autoSizeColumns" method Note: Now width of the expand/collapse column is correctly calculated when there is more than one grouped columns and autoSizeColumns method is used
248242	igGrid (GroupBy)	Bug Fix	

			Re-using columnSettings in Updating leads to issues because the change events are preserved in the original options Note: Now columnSettings can be re-used without any issues.
246635	igGrid (Updating)	Bug Fix	
			Expanded rows collapse after hiding columns. Note: InitialExpandDepth should be taken into account after a column if hidden/shown. Limitations: 1. Expanded/collapsed rows by the end user are not persisted. 2. State of the child grids is not persisted. Example: Hidden columns by the end user in a child grid will be discarded after a parent grid column visibility state changes. Note on performance: When initialExpandDepth > 0 there might be some performance degradation as the whole grid is re-rendered and all child grids re-created when the user hides/shows a column.
247376	igHierarchicalGrid	Bug Fix	
GH1466	igNumericEditor	Bug Fix	Null value is not properly set when value is deleted from numeric editor
GH1377	igNumericEditor	Bug Fix	Numeric editors don't show the keypad after losing focus on Firefox for Android

GH1420	igScroll	Bug Fix	Scroll bar on Samples page do not go all the way down (happens from time to time)
GH1135	igScroll	Bug Fix	igScroll custom scrollbar thumb gets too small when the scroll container has big height
GH1564	igTree	Bug Fix	igTree does not load nodes after level 3 when using loadOnDemand
GH1516	igTree	Bug Fix	Check mark on the parent node is not black after all the children are checked
GH1461	igVideoPlayer	Bug Fix	Comercials does not show in IE when forward the player
			Helper text for MVC wrappers is in Japanese Note: The existing nuget package was replaced with a new correct one, which contains the English xml file.
246489	MVC Wrappers	Bug Fix	

247882	MVC Wrappers (Chart)	Bug Fix	<p>YAxisMinimumValue and YAxisMaximumValue are missing in the intellisense</p> <p>Note: The YAxisMinimumValue and YAxisMaximumValue properties were added to MVC CategoryChart.</p>
248335	MVC Wrappers (Chart)	Bug Fix	<p>TitleAngle, TitleHorizontalAlignment and TitleVerticalAlignment are missing in the intellisense</p> <p>Note: The axis properties TitleAngle, TitleHorizontalAlignment, and TitleVerticalAlignment were added to the MVC DataChart.</p>
