Prerequisite	Description				
Visual Studio for LightSwitch 2011	Visual Studio LightSwitch 2011 is a development tool that helps you build business applications quickly. LightSwitch provides a simplified development environment that enables you to concentrate on the business logic instead of the application infrastructure.				

What's Fixed

Component	Product Impact	Description
Map	Bug Fix	DataMapping Strings can be altered in undesired way
Common	Bug Fix	Cannot modify TabControl's content alignment when using Infragistics themes Notes: Fixed an issue with alignment of TabControl's content. Now the content alignment can be controlled in any LightSwitch control.
Common	Bug Fix	Bindings are lost after switching tabs
Common	Improvement	IG Shell: there is no icon for 'Close' button and custom user button Notes: Added default icon for the Command items without assigned image.
Grid	Bug Fix	MultipleColumn resize typo in one of the tooltip strings for the Grid control.
Grid	Bug Fix	Checkbox Column ignores HorizontalAlignment setting. Notes: Column's content alignment will be set based on the control that is associated with this column.
Grid	Bug Fix	An error occurs in the Grid control when click on a grid header of a column containing Group element
Grid	Bug Fix	Grid numeric values text alignment
Grid	Bug Fix	System.Windows.Data Error: Failed to connect to index 'Infragistics.LightSwitch.Extensions:XamGrid/AllowFiltering'
Grid	Bug Fix	Group by row DateTime format Notes: Fixed an issue with applying ItemTemplate to the GroupByRow when the Column that is grouped and it is of LightSwitch type Date.
Grid	Bug Fix	Grid throws NullReferenceException when Grouping in current tab by Location
Grid	Bug Fix	Adding Address Viewer causes "unique key" error.

		Notes: Fixed an issue when adding groups inside column and the groups as unbounded columns.
Grid	Bug Fix	The headers of the columns show “Name” of the field instead of “Display Name”
		Notes: Fixed an issue with setting the column's header text in its constructor. Now the display name comes from the ContentItem.
Grid	Bug Fix	Switching tabs takes 3-4 seconds.
		Notes: Made performance optimizations for displaying the cells.
Masked Edit	Bug Fix	Ability to have a percentage symbol in a MaskedEdit control
Numeric Editor	Bug Fix	Setting for Minimum a negative value results in error messages during run time.
Numeric Editor	Bug Fix	If a value in the Numeric Editor is edited and the new value is bigger than the Maximum property the editor removes the digit that is edited last.
