

INFRAGISTICS Silverlight 14.2 – Service Release Notes – September 2015

Raise the Bar on Both Business Intelligence and Web UI with Infragistics Silverlight Controls.

Infragistics Silverlight controls provide breadth and depth in enabling developers to bring modern, trend-setting applications to market while shortening development time. If you need gesture/touch support, dynamic themes, and lightning fast performance in one Silverlight package, look no further.

The screenshot shows a web application titled "CamPivotGrid". It displays a data table with columns for "Country", "Population", and "GDP per Ca". The table is filtered by "Country". To the right of the table is a chart showing a large red bubble and several smaller colored bubbles.

Country	Population	GDP per Ca
Luxembourg	1 M	\$54,844 K
Macedonia, FYR	3 M	\$2,178 K
Moldova	5 M	\$0,588 K
Montenegro	1 M	\$2,356 K
Netherlands	17 M	\$27,307 K
Norway	5 M	\$42,430 K
Poland	39 M	\$6,222 K
Portugal	11 M	\$11,403 K
Romania	23 M	\$2,845 K
Serbia	11 M	\$1,810 K

The screenshot shows a web application titled "AVEE TALENT". It features a contact card for "Maria Anders" at "Alfreds Futterkiste" with contact information (phone, fax, email). Below the card is a bar chart with four blue bars of varying heights. To the right of the chart is a "SYSTEM" section with dates for "Last Payment", "Last Shipment", and "Last Invoice".

CONTACT INFORMATION

SYSTEM
Last Payment: 10/26/200
Last Shipment: 10/25/200
Last Invoice: 10/24/200

Installation

Downloading	Download Infragistics Ultimate here.				
Installation Prerequisites	<p>Before you install Infragistics Ultimate, make sure you have the following:</p> <table border="1" data-bbox="506 573 1900 867"><thead><tr><th data-bbox="506 573 968 662">Prerequisite</th><th data-bbox="968 573 1900 662">Description</th></tr></thead><tbody><tr><td data-bbox="506 662 968 867">Silverlight 5</td><td data-bbox="968 662 1900 867">Download and Install Silverlight 5 Developer Runtime for Windows from Microsoft© website.</td></tr></tbody></table>	Prerequisite	Description	Silverlight 5	Download and Install Silverlight 5 Developer Runtime for Windows from Microsoft© website .
Prerequisite	Description				
Silverlight 5	Download and Install Silverlight 5 Developer Runtime for Windows from Microsoft© website .				

What's Changed

Components	Product Impact	Description
Context Menu	Bug Fix	Cascading menu opens in the wrong direction, when setting the browser zoom to more than 100%.
Control Persistence Framework	Bug Fix	ContextMenu is being persisted regardless of the SavePersistenceOptions being set to "OnlySpecified." There is an error in the loading of the context menu after that.
Date Time Input	Bug Fix	Memory leak appears with page navigation and theme.
Dialog Window	Bug Fix	The newly opened dialog window goes under the existing dialog window.

Formula Editor	Bug Fix	<p>Memory leak appears in Formula Editor when switching views.</p> <p>Notes: Resolved an issue in the XamFormulaEditor which could cause a rooting issue in Silverlight if the control was unloaded and loaded multiple times.</p>
Grid	Bug Fix	NullReferenceException is thrown when a new row with a null value is added and filtering was applied.
Grid	Bug Fix	Only the items of the grid that the user is operating on are displayed as filter items.
Masked Input	Breaking Change (API)	<p>Masked Input control behavior with ValueConstraint of Nullable="False" differs from documentation.</p> <p>Notes: There is a new value in the InvalidValueBehavior enumeration – "DisplayErrorMessageAndRevertValue", which is now the default value. While the DisplayErrorMessage retains the value, this one reverts it.</p>
Masked Input	Bug Fix	Pasting operation is allowed when the IsReadOnly property is set to True.
Masked Input	Bug Fix	<p>A small number is not accepted if the caret is on the right side of the last digit.</p> <p>Notes: Resolved an issue in the XamMaskedInput and XamNumericInput controls where placing the caret to the right of the rightmost fractional digit and pressing a number key would not result in the number being accepted and displayed when there were 1 or more 'empty' fractional digit locations.</p>
Menu	Bug Fix	Menu item does not open correctly when the zoom level of the browser is set to more than 100%.
Pivot Grid	Bug Fix	Slow Pivot Grid performance when loading data from XmlaDataSource.
Pivot Grid	Bug Fix	An item in the dataselector can't be dragged when using the Office2010Blue Theme.
Rich Text Editor	Bug Fix	The GetPositionFromPoint method returns null when the SnapToText is set to true and the point is 0 or not within the control's boundaries.
Rich Text Editor	Bug Fix	The GetPositionFromPoint method returns null when the editor is zoomed in few times.
Rich Text Editor	Bug Fix	The GetPositionFromPoint method returns null in a paragraph with a drop cap.
Rich Text Editor	Bug Fix	The GetPositionFromPoint method returns null for text in the table cells.

Rich Text Editor	Bug Fix	<p>Opening of an empty document is throwing an exception.</p> <p>Notes: Resolved an issue in RichTextDocument which resulted in an exception being thrown when opening a document with zero length contents. Now no exception is thrown and an empty document is returned.</p>
Rich Text Editor	Bug Fix	<p>Pasted HTML with empty row adds a large empty row in the rich text editor.</p> <p>Notes: Fixed a bug in the Html serializer that was adding extra row before and after paragraph spacing when de-serializing table cells with no content.</p>
Rich Text Editor	Bug Fix	<p>Deselecting a paragraph marked via the mouse is deselecting also the last character.</p>
Schedule	Bug Fix	<p>Reminders do not open when AppointmentItemsSource is set after the schedule initialization is complete.</p> <p>Notes: Resolved an issue in XamSchedule where the reminder dialog was not displaying for Appointments that were created in code and added to the associated DataConnector's AppointmentItemsSource if the DataConnector's AppointmentItemsSource property was set AFTER the XamScheduleDataManager was loaded/initialized and IMMEDIATELY BEFORE the Appointment was added to the AppointmentItemsSource.</p>
Schedule	Bug Fix	<p>Empty Item appears in the dropdown in the Recurrence Dialog.</p>
Schedule	Bug Fix	<p>A confusing message appears for yearly recurrence.</p>
Schedule Outlook Calendar View	Bug Fix	<p>Date Navigator is not synchronized with XamOutlookCalendarView.</p>
Syntax Editor	Improvement	<p>The squiggly for added diagnostic is not shown when the length of the TextSpan is greater than the length of the line.</p> <p>Notes: Added support for multi-line syntax error adornments in the XamSyntaxEditor. Also resolved an issue in the XamSyntaxEditor when modifying text to correct an existing syntax error that sometimes resulted in</p>

a flicker, with the error squiggly disappearing upon typing but reappearing briefly before disappearing for good.

Tile Manager

Bug Fix

Maximize, minimize and close buttons do not work after clearing and re-adding tiles to the Tile Manager.
