What's Changed

ID	Component	Product Impact	Description
259488	Data Chart	Breaking Change	Right click and drag brings up the zoom navigation To provide the developer the means to specify how the UltraDataChart should behave when dealing with right mouse button events, a new property RightButtonDefaultInteraction has been added to the control.
260649	DataChart	Bug Fix	UltradataChart throwing NullReferenceException for StackedAreaSeries
261093	DockManager	Bug Fix	When undocking/unpinning windows/panes they unable to be resized
262145	DockManager	Bug Fix	UltraExpandableGroupBox is not expanded at runtime

261961	Editors	Bug Fix	EditorButton icon size issues The issue here is that the UltraCombo is using the ImageList when considering the GetSizeOfImages methods of the editor owner. None of the other editors do this and that's why the Ultracombo was behaving differently than all of the other editors. So I changed UltraCombo to do what all of the other editors do and ignore the ImageList. Note that the problem(s) described here ONLY occur when using an ImageList. If you assign an image directly to the button.Appearance.Image without an ImageList, it works the same way as all the other editors do.
251607	Excel	Bug Fix	Issue when reading cell with formula
253373	Excel	Bug Fix	Excel doesn't calculate VLOOKUP formula.
256891	Excel	Bug Fix	InfragisticsWorksheetCell.GetText() throws exception for cell with custom format #/#### "SF"
258127	Excel	Bug Fix	Excel engine throwing ArgumentException exception when using named range
258183	Excel	Bug Fix	SUBTOTAL Function does not ignore other SUBTOTAL values in range
259062	Excel	Bug Fix	Exception is thrown when loading a workbook with bad data that causes NamedReference to target a different localSheetId
254663	GanttView	Bug Fix	Active tasks appearance from AppStylist do not paint based on scroll position (taken from slighly modified LucidDream.isl
260269	Geographic Map	Bug Fix	SeriesMouseLeftButtonUp fires intermittently
260782	Grid	Bug Fix	NullReferenceException when you exit edit mode on a WinGrid cell using UltraControlContainerEditor
261298	Grid	Bug Fix	Dragging a grouped column onto data rows causes null exception
261825	Grid	Bug Fix	Column's MaxWidth is ignored when min and max widths are equal
260196	Pivot Grid	Bug Fix	No data is displayed for the UltraPivotGrid in AppStylist
259642	Schedule	Bug Fix	GetDateOfNextOccurrence() method return null date when appointment is running.

261458	Schedule	Bug Fix	Image added to appointment is duplicated
260042	SpreadSheet	Bug Fix	ArgumentException in System.Drawing.dll on loading a workbook
260568	Toolbars Manager	Bug Fix	Null Reference Exception coming from ContextualTabGroupCaptionUIElement.OnMouseLeave
260620	Toolbars Manager	Bug Fix	Label tool does not display tooltip when set through ToolTipTextFormatted
261354	Tooltip Manager	Bug Fix	String unexpectedly wraps causing the last line not to be displayed.
259879	Tree	Bug Fix	Does not scroll while using the mouse wheel when another control has focus Windows 10 has an option in the mouse settings called: "Scroll inactive windows when I hover over them". It defaults to On. If this setting is off, the tree control will not receive a MouseWheel notification unless it has focus. This is true of all controls. When this setting is on, and the tree gets a MouseWheel message, it will now scroll.
261996	Tree	Bug Fix	Printing Tree with footer TextLeft set throws NullReferenceException
