What's Changed

Components	Product Impact	Description
Infragistics Excel Engine	Bug Fix	GetText() takes longer if the cell has formula and worksheet has many rows. Notes: Fixed an issue with the Excel library where the COUNTIF, AVERAGEIF, and SUMIF functions would return incorrect results when both the lookup and the test values contained strings that could be parsed as numbers.
Infragistics Excel Engine	New Functionality	Exposed internal property StartingRun of the FormattedStringFont. Notes: In the Excel library, added FormattedString.GetFormattingRuns() and FormattedText.GetFormattingRuns() methods which return enumerators that will inspect the fonts for contiguous executions of formatting.
Infragistics Excel Engine	Bug Fix	ActiveX "Checkbox" which is saved with an auto shape at Excel2003 fails when loading and saving. Notes: Fixed an issue in the Excel library where ActiveX controls returned from an Excel 2003 file would show incorrectly or not be interactive when the saved file is opened.
Infragistics Excel Engine	Bug Fix	Excel book including Elbow Arrow shape disconnects after it is loaded.

INFRAGISTICS DESIGN / DEVELOP / EXPERIENCE

			Notes:
			Fixed an issue in the Excel library where files containing unsupported connector shapes open with errors when they are returned.
Infragistics Excel Engine	Bug Fix		Circularity when retrieving value from a cell. Notes: Fixed an issue with the Excel library where the SUMIF function would cause erroneous circularity when a third parameter was specified.
Infragistics Excel Engine	New Functionality		ActiveX and FormControls are not visible when saving the file in XLSX, XLSM formats. Notes: In the Excel library, added a support for ActiveX and form controls in the Excel 2007 and later formats.
Infragistics Excel Engine	Bug Fix		The Macros in ActiveX and FormControls are not available when saving the file in XLS, XLSX and XLSM formats. Notes: Fixed an issue with the Excel library where macros associated with Forms and ActiveX controls were not being returned correctly.
AppStylist	Bug Fix		CellPadding for WinGrid not available in the properties.
WinCalcManager	Bug Fix		Summary GridRows is causing an error - PerCederberg.Grammatica Performance Issues. Notes: We used caching mechanism reducing the number of exceptions with the number of formula Summaries.
WinChart	Bug Fix		Series line is drawn beyond RangeMax value and not drawn within the range when setting the range on LineChart3D.
WinComboEditor	Bug Fix		Enahance Autocomplete mode to append based on the user typed string in the editor, not just the first character. Notes:

		A KeyboardSearchInterval property was added to UltraCombo, UltraComboEditor, and UltraTreeview to control the keyboard search timing.
WinMaskedEdit	Bug Fix	Issue with input string in MaskedEdit.
WinOptionSet	Bug Fix	The component incorrectly takes the focus , when performing mnemonic key combination.
WinGanttView	Bug Fix	A Null Reference Exception is thrown when binding a specific type of data.
WinGrid	Bug Fix	An AfterRowFilterDropDownPopulate does not get raised for Custom filter dialog.
WinGrid	Bug Fix	Tabbing away from the last cell of the Ultragrid with ControlContainerEditor shows inconsistent focus shifting.
WinGrid	Bug Fix	The FilterUIProvider does not persist the selection.
WinGrid	Bug Fix	The ActivationResolved on the UltraGridCell is not public. Notes: Exposed an ActivationResolved property on the UltraGridCell which returns the resolved activation taking into account the cell, the row, and the column.
WinGrid	Bug Fix	The first column's header caption loses the last character when RowSelecterHeaderStyle is set to SeparateElement, and the column is auto-resized.
WinGrid	Bug Fix	Some cells with an embedded dropdown lose their value after pasting the text and moving the focus to another cell.
WinGrid	Bug Fix	Value in cell with a trailing space disappears when the editor for the column is set to an UltraCombo that has an identical item in its list.
WinGrid	Bug Fix	Tooltip does not display when the entire cell text is longer than column width.
WinCombo	Bug Fix	UltraCombo appears in the overflow dropdown when placed in a ToolStrip.
WinButton	Bug Fix	NullReferenceException encountered in OnLostFocus method.
WinFormattedLinkLabel	Bug Fix	Some Appearance properties are changed automatically when the exclusive editor dialog is shown via property window.
WinFormattedTextEditor	Bug Fix	Editor scrolls frequency is inconsistent with the mouse wheel settings.
WinTimeLineView	Bug Fix	Scrolling by dragging the scroll thumb sometimes causes an ArgumentOutOfRangeException.
WinToolbars	Bug Fix	Tools' caption fails to render correctly when UseGDIPlusTextRendering is false.
WinDockManager	Bug Fix	Unpinning panels and closing application causes Null Reference Exception.

WinDockManager	Bug Fix	The call stack appears truncated.
WinToolbarsManager	Bug Fix	Win32Exception has been thrown after resuming from sleep mode.
WinTree	Bug Fix	When AllowKeyboardSearch is True, not enough time is allowed between keystrokes to allow for an average typing speed. Notes: A KeyboardSearchInterval property was added to UltraCombo, UltraComboEditor, and UltraTreeview to control the keyboard search timing.
WinMessageBox	Bug Fix	The dialog window is smaller in size than expected.
