

Infragistics Windows Forms 14.1 Service Release Notes – July 2014

 **INFRAGISTICS™**
WINDOWS FORMS

Add complete usability and extreme functionality to your next desktop application with the depth and breadth our Windows Forms UI controls. Infragistics Windows Forms continues to make strides in user experience with the latest Windows® 7, Windows® 8, Office® 2010 and Office® 2013 styles.

Installation

Downloading	Download Infragistics Windows Forms here.
--------------------	---

What's Changed

Components	Product Impact	Description
Infragistics Document Engine	Bug Fix	When exporting to PDF, additional whitespace appears in view.
Infragistics Excel Engine	Bug Fix	Previously hidden comments are visible after loading and saving an Excel file. Notes: Fixed an issue in the Excel library where hidden comments loaded from an Office2007 format file as if they were visible.
Infragistics Excel Engine	Improvement	Loading a large workbook takes longer than seems reasonable. Notes: Improved the performance in the Excel engine, specifically during loading of large documents.
Infragistics Excel Engine	Bug Fix	System.ArgumentException is raised when loading an excel files. Notes: Fixed an issue in the Excel library where loading an Office2007 or later format file would cause an ArgumentException.
Infragistics Excel Engine	Bug Fix	Initial cell spacing is not applied when exporting to ".xlsx" files. Notes:

		Fixed an issue in the Excel library where leading spaces on cells values would get cleared when saving to an Office2007 format file.
Infragistics Excel Engine	Bug Fix	<p>An error is displayed when opening a workbook if the Title, Comments, or Author have leading spaces.</p> <p>Notes: Fixed an issue in the Excel engine where saving an Office2007 format file with a Title, Comment, or Author containing leading or trailing spaces caused Microsoft Excel to display an error when opening the file.</p>
Infragistics Excel Engine	Bug Fix	<p>Cannot create new workbook with excel file that contains a macro.</p> <p>Notes: Fixed an issue in the Excel library where loading an Office2003 format file with named references referring to other named references could cause an ArgumentNullException.</p>
WinChart	Bug Fix	X2 axis label's Visible property was not saved when it was configured through the Visual studio designer.
WinComboEditor	Bug Fix	The items in the drop-down do not scroll when there is not enough space to respect the "MaxDropDownItems" property.
WinMaskedEdit	Bug Fix	Blank editor with mask causes to remain the focus on the editor even if attempting to lose focus by clicking on another control or using the tab key to navigate away.
WinOptionSet	Bug Fix	<p>Configuring the CheckState property on an item has no effect on the checked state.</p> <p>Notes: The "CheckState" property added to "ValueList" in 2009 was intended for UltraComboEditor to support Multi-select. It has been updated to support the check state synchronization for UltraOptionSet.</p>
WinGrid	Bug Fix	An unhandled Exception occurs when canceling the changes of AddnewRow.
WinGrid	Bug Fix	New child band row is not committed to an entity collection.
WinGrid	Bug Fix	Characters overlap in a cell if the column's Style is set to "FormattedText" and "CellMultiLine" property is set to "True".

WinGrid	Bug Fix	The focus stays in the cell instead of the open drop-down, while a cell with a drop-down in the "TemplateAddRow" is active.
WinGridColumnChooser	Bug Fix	"ColumnChooserDialog" columns are not updated when changing the DataSource via "SetDataBinding".
WinCombo	Bug Fix	The "IsItemInList" method returns false when multi-select is enabled and more than one item is selected.
WinCombo	Bug Fix	The "SuggestAppend" filtering mode is not refreshed when setting the DataSource to null and then rebinding it.
WinGridPrintDocument	Bug Fix	Columns are missing from print preview when RowLayoutStyle is set to ColumnLayout or GroupLayout.
WinListView	Bug Fix	<p>Inactive items using the "ControlContainerEditor" are not resized properly when the control is resized.</p> <p>Notes: The custom control has to override the "GetPreferredSize" method and return its size in order to apply the correct size when the control is resized.</p> <p>Example:</p> <pre>public override Size GetPreferredSize(Size ps) { Form form = this.FindForm(); if (form == null) return base.GetPreferredSize(ps); return new Size(form.Size.Width, this.Height); }</pre>
WinLiveTileView	Bug Fix	After clearing the tile text in the Visual studio designer, then closing and reopening the form still displayed the text on the tile.

WinLiveTileView	Bug Fix	Live Wide Tile wraps to a new column when adding a tile using the Visual studio designer.
WinFormattedTextEditor	Bug Fix	The caret does not display while typing in the editor.
WinPanel	Bug Fix	An "InvalidOperationException" - Cannot dispose an UltraPanel.ClientArea that contains an UltraChart.
WinPanel	Bug Fix	The "GestureQueryStatus" and "GestureCompleted" events are not raised upon "Tap and Hold" interaction.
WinCalendarInfo	Bug Fix	Non-weekly RecurringAppointments are not displayed, when they are limited by NumberOfOccurences and start before the MinDate.
WinToolbarsManager	Bug Fix	The UI is not responsive after hovering the mouse over the ApplicationMenuControlUIElement.
WinToolbarsManager	Bug Fix	ControlContainerTool in collapsed Ribbon group, incorrectly displays its control over the Ribbon, after the Ribbon is expanded from Auto-Hide state.
WinToolbarsManager	Bug Fix	Tool appearance does not update when it is set after loading the tools from file.
WinToolbarsManager	Bug Fix	MDIParentManager does not apply the changes on a "Toolbar.Visible" property when the owning form is reactivated.
WinToolbarsManager	Bug Fix	The scrollable controls embedded in the application menu do not scroll when the mouse wheel is used.
