What's Changed

Components	Product Impact	Description
Calendar	Bug Fix	When today button is pressed the focus remains on it even though other elements are selected when using Metro and Metro Dark Theme
Calendar	Bug Fix	Missing selection borders for the current day in xamCalendar when using IG Theme
Calendar	Bug Fix	The current day is not distinguished when there is a selection with some themes
Calendar	Bug Fix	Hover effect is missing on the selection in xamCalendar when using Office2013 theme
Charts	Improvement	<p>Very slow to add a synced chart after adding 9 or 10 charts previously</p> <p>Notes: Performance when many charts are in a sync relationship has been improved.</p>
Combo Editor		Vertical scrollbar is visible always if items are not more than the height of the dropdown.
Combo Editors	Bug Fix	Incorrect behavior when having single selection and IsSelectedMemberPath is set
Combo Editors	Bug Fix	SelectedValues returns only the first found match
Combo Editors	Bug Fix	SelectedItems functionality is not working if setting the property at runtime
Data Carousel	Bug Fix	The forecolor of carousel's group-by records is too dark for the blue background when using the Office2013 theme
Data Carousel	Bug Fix	Some items' borders are missing when using Office2013 theme

Data Chart	Bug Fix	When a default mouse interaction is selected , there is no way to understand which one was selected in the OPD Pane when using the Office2013 theme
Data Grid	Bug Fix	Cell Selection doesn't work correctly when there are super headers.
Data Grid	Bug Fix	Keyboard navigation doesn't work as expected when LazyLoad is used.
Data Grid	Bug Fix	RecordUpdating and RecordUpdated events are not fired when editing unbound fields
Data Grid	Bug Fix	The 'ActiveDataItem' is null when its binding is set before the DataSource's binding in XAML
Data Presenter	Bug Fix	The SummaryRecord cannot be scrolled into view on the first scroll attempt after moving the summary field.
Data Presenter	Bug Fix	Inappropriate style of the group-by area connectors when using the Office2013 theme
Data Presenter		Overlapping borders and label height changes when the header is on 2 rows when using the Office2013 theme
Data Presenter	Bug Fix	Expanded grouped header borders are inconsistent whe using the Office2013 theme
Data Presenter	Bug Fix	Moving field headers results in shrinking them when using the Office2013 theme
Data Presenter	Bug Fix	Not all records are shown after changing views from datagrid to cards / carousel and then back to datagrid
Data Presenter	Bug Fix	Setting SelectedDataItems when grouping is applied does work
Data Tree	Bug Fix	Activate item which is out of view should trigger scrolling into view
Data Tree	Bug Fix	Vertical Scrollbar position is not persisted
Data Tree	Bug Fix	Null Reference Exception is thrown when the window is maximized and the tab is changed
Date Navigator View		Hover effect is missing on the selection when using Office2013 theme
Date Time	Bug Fix	The dropdown does not have a border when using Office2013 theme
Date Time Input	Bug Fix	XamDateTimeInput changes its height when it is hovered over to display the dropdown button
Diagram	Bug Fix	When the control is virtualized the item diasapears from OPD preview
Dialog Window	Bug Fix	Dialog windows behind a modal dialog window get focus when the modal appears and is moved
Dock Manager	Bug Fix	Argument Exception is thrown when clicking between content panes in DocumentContentHost when DPI settings are changed
Dock Manager	Bug Fix	IsVisibleChanged on ToolWindow fires more than twice when floating and docking a pane

Dock Manager	Bug Fix	Setting 'AllowDockingLeft' property to "False" allows the content pane to be docked left after undocking it
Dock Manager	Bug Fix	StackOverflowException is thrown after a pane is added in a specific way
Dock Manager	Bug Fix	An exception is thrown when floating a pane that used to be in floating then dockable then docked state.
Donut Chart	Bug Fix	Inconsistency between SliceItem and Slice objects in the RingSeries
Donut Chart		RingSeries' labels are displayed when there is no sufficient space for them
Excel	Bug Fix	Incorrect open parentheses when getting the display text for a cell using one of the built in numeric formats
Excel	Bug Fix	Part URI cannot contain a Fragment component error when loading a specific workbook
Excel	Bug Fix	Theme information is not loaded by the Workbook if there isn't an entry for the part in the rels section.
Excel	Bug Fix	A cell's border style is incorrectly resolved using the style value even though the border was explicitly set to None
Excel	Bug Fix	Auto size row height is not correct when using center across selection, cell specific fonts, borders or vertically merged text.
Excel	Bug Fix	Some table formulas are not being calculated properly and return #NUM instead of the value.
Excel Exporting	Bug Fix	Exporting large data async is not really async
Excel Exporting	New Functionality	Exported file does not take Timespan format when exporting xamDataGrid Notes: Added the TimeSpan as a support cell Value type in the Excel library.
Field Chooser	Bug Fix	Horizontal scroller in Field Chooser appears when the content has a larger width instead of autosizing
Formula Editor	Bug Fix	The IsEnabled property is not working
Grid	Bug Fix	Empty string is not displayed in the filter for null values of type Long and DateTime
Grid		Horizontal Scrolling causes the Header and Summary to jump
Grid	Bug Fix	Null Reference Exception is thrown while resizing group columns
Grid	Bug Fix	Some elements need improvement when using the Office2013 theme

Grid	Bug Fix	System.ComponentModel.Win32Exception is thrown when the drag handler is clicked
Grid	Bug Fix	Error message box with exception stack trace appears when resizing a GroupColumn
Grid	Bug Fix	AddNewRow functionality doesn't work correctly when using xamComboEditor as the editor in a custom column
Grid	Bug Fix	Blank area appears and it partly covers over a column which width is changed on data binding when using the Metro Dark theme
Grid	Bug Fix	FilterMenu cannot filter if the filter value is null
Linear Gauge	Bug Fix	The scale with vertical orientation set displays out of the boundaries of the control when using the Office2013 theme
Masked Inputs	Bug Fix	Input values from software keyboard turns to be blank space
Month Calendar	Bug Fix	The current day is not distinguished when there is a selection with some themes
Month Calendar	Bug Fix	The separator line for WeekNumber is doubled when using the Metro or Metro Dark theme
Month Calendar		Today button's content is not visualized during design time when using the Metro / Metro Dark / Office 2013 themes
Month Calendar	Bug Fix	Hover effect is missing on the selection when using the Office2013 theme
Multi Column Combo		Horizontal scrolling does not behave correctly when having a single item
Multi Column Combo	Bug Fix	Null Reference Exception when changing IsSelectedMemberPath and pressing Back key
Numeric Editor	Bug Fix	Entered number is invisible when the caret is on the left end and screen keyboard is used
Outlook Calendar View	Bug Fix	Reccurence appointments are not displayed properly
Outlook Calendar View	Bug Fix	The header is not styled when using the Metro Dark theme
Pivot Grid	Bug Fix	PivotGrid Cell Widths appear to have random widths after collapsing / expanding the levels Notes: The column's width was jumping when user expand/collapse the levels
Pivot Grid	Bug Fix	Column's width is not correctly calculated when expanding dimensions.
Record Filtering		The underline of the capital 'A' for "Starts with" and "Ends with" filter operators is not visible.
Ribbon	Bug Fix	The context menu in the Tab Item Area is bigger than the normal

Ribbon	Bug Fix	When maximized on one monitor Ribbon Window is rendered partially to the second monitor when using Office2013 theme
Rich Text Editor	Bug Fix	An additional row that can't be removed is added when a table is inserted in another table's cell.
Rich Text Editor	Bug Fix	Some table borders appear thicker than the rest
Rich Text Editor	Bug Fix	Some shapes and images are not shown neither as unsupported content, nor as objects.
Rich Text Editor	Bug Fix	Autoscrolling is done when clicking on text which is positioned close to an image Notes: Fixed an unintended scrolling issue which occurred when clicking on text within a line containing a tall image.
Rich Text Editor	Bug Fix	Plain text clipboard support issues
Rich Text Editor	Bug Fix	InsideHorizontal and InsideVertical borders override all other borders.
Rich Text Editor	Bug Fix	Copying part of a hyperlink is pasting automatically the copied part three times
Rich Text Editor	Bug Fix	Image cropping does not work as Word or Paint
Rich Text Editor	Bug Fix	Tooltip of the hyperlink remains even though the cursor is not in the window Notes: Resolved an issue where a Hyperlink tooltip would sometimes remain displayed even after the mousepointer was moved beyond the bounds of the XamRichTextEditor
Rich Text Editor	Bug Fix	ListLevelOverrides is not restarting the numeration of the second list when shared list template is used
Rich Text Editor	Bug Fix	Applying character format to the lists indicators of the second list is restarting its numeration although a shared list template is used
Rich Text Editor	Bug Fix	When adding text after a hyperlink, the text looks like a hyperlink Notes: Resolved an issue when typing IME text directly after a hyperlink which caused the newly typed IME text to take on the appearance of the hyperlink.

Rich Text Editor	Bug Fix	Resizing the parent table does not properly resize the nested one.
Rich Text Editor	Bug Fix	<p>Typing in second paragraph after deleting from another paragraph results in using the wrong character settings</p> <p>Notes: Resolved an issue where the wrong CharacterSettings were being applied to typed text after backspacing over some formatted text, using the mouse to change the caret position to some differently formatted text and then typing some characters.</p>
Rich Text Editor	Bug Fix	Line spacing settings are not visualized absolutely correct
Rich Text Editor	Bug Fix	Tables resize preview is offsetted to the left when TableIndent is specified
Rich Text Editor	Bug Fix	Exact instead of At Least is used as an extent rule for table's row height
Rich Text Editor	Bug Fix	Tables with offsetted cells are not properly drawn.
Rich Text Editor	Bug Fix	Error is thrown when saving in HTML and after that in DOCX
Rich Text Editor	Bug Fix	<p>Paragraph marker is not getting selected when selecting the entire line via SHFT+HOME</p> <p>Notes: Resolved an issue that occurred when selecting an entire paragraph by placing the caret immediately before the paragraph mark and pressing SHIFT+HOME. In this scenario the XamRichTextEditor was not selecting the paragraph mark along with the paragraph's content.</p>
Rich Text Editor	Bug Fix	<p>Exiting a list through backspace is breaking the encoding</p> <p>Notes: Resolved an issue that occurred when pressing backspace while the caret was positioned at the beginning of a bulleted List Item (i.e., immediately after the bullet and before the list item's text). In this scenario, characters typed after pressing backspace were rendered using the Symbol font.</p>

Rich Text Editor	Bug Fix	<p>The viewport scrolls when resizing a large document</p> <p>Notes: Resolved an issue that occurred when resizing a xamRichtextEditor control that caused the control's content to move randomly while the resize was in progress and the previous vertical scroll position in the document to be lost when the resize completed.</p>
Rich Text Editor	Bug Fix	Tables with headings and spans are not properly loaded from HTML.
Schedule	Bug Fix	Performance slows down when xamDayView is showing many calendars with many appointments.
Schedule	Bug Fix	The reminder combo box is not styled in all themes except MetroDark
Schedule	Bug Fix	Combo boxes for the TimeZones are missing from the Appointment Recurrence dialog
Schedule	Bug Fix	The recurrence indicator is too large when using the Office2013 theme
Schedule	Bug Fix	The selection of reminder ComboBox in the activity dialog should not have borders when using the Office2013 theme
Spell Checker	Bug Fix	The dialog's buttons are not properly positioned when using Office2013 theme
Spell Checker	Bug Fix	Minimize and Maximize buttons should be improved
Syntax Editor	Bug Fix	Auto-casing does not occur after leaving a line with an undone edit
Syntax Editor	Bug Fix	<p>Using SHIFT+TAB to move focus into the editor causes an outdent operator</p> <p>Notes: Fixed an issue in the xamSyntaxEditor when pressing SHIFT+TAB while another control has the focus. When this scenario caused the xamSyntaxEditor to receive the focus the syntax editor was incorrectly processing the SHIFT+TAB key combination to outdent the paragraph at the current caret location. The syntax editor now ignores SHIFT+TAB in this scenario.</p>
Tab Control	Bug Fix	Close button location jumps when selecting a tab and TabStripPlacemnt is set to "Bottom"
